DISSENT IN THE RANKS—British postal workers shout their disagreement with union leaders at a Hyde Park rally after the strike was called off. Leader Tom Jackson was booed and greeted with cries of "sellout."

West Berlin Asks Reds to Start Talks

By Anatole Shub

BONN, March 4 (WP).—West Berlin Mayor Klaus Schuetz tonight proposed starting negotiations Saturday morning with East Germany on permitting West Berliners to cross the wall into East Berlin for the first time since 1965.

Mr. Schuetz's proposal, approved by Bonn and the Western Allies, came in clear response to East German restraint today in permitting traffic to move freely on the autobahns from West Germany to Berlin.

The East Germans had stalled traffic yesterday to protest the opening of a three-day meeting of West German Christian Democratic Union (CDU) legislative leaders in Berlin. In current Big-Four negotiations on Berlin, the Communist position has been that such meetings do not belong in West Berlin.

Yesterday's East German harassment led Mayor Schuetz to decline a proposal from East Berlin to begin talks today on passes for West Berliners to visit East Berlin during the coming Easter holidays. The autobahn troubles also led U.S., British and French diplomats to put off a working meeting with the Russians intended to prepare next Tuesday's conference of the Big-Four ambassadors.

Despite exchanges of formal protests and the continuing CDU meeting in West Berlin, the East Germans allowed traffic to move normally today—an action viewed by political circles here as a clear signal of "de-escalation" from the Communist side in the Berlin ritual. By nightfall, Mr. Schuetz had sent a message by teleprinter to East Berlin urging that talks on the Easter passes begin Saturday.

Allied diplomats, meanwhile, indicated that the lower-level preparatory Big-Four meeting would also probably be held during the weekend.

Thus, despite yesterday's autobahn incidents, there are indications that the coming weeks might see significant progress toward accords on Berlin. In the last fortnight, diplomatic observers have been revising their earlier estimate that no movement was likely before the Soviet Communist party congress, which

Although Back-to-Work Vote Is Predicted

London Postmen Oppose Return

LONDON, March 4 (Reuters).—Leaders of Britain's striking postal workers today urged a return to work—but encountered a revolt from militants over a formula to end the 44-day work stoppage.

Jeers and catcalls greeted union chief Tom Jackson, until today the hero of the 220,000 mailmen, as he tried to explain the peace plan. It had been thrashed out in difficult overnight talks with post office officials.

The London postmen, regarded as more militant than those from other parts of Britain, chanted "Sellout, stay out, Jackson out," and "We will not go back," as Mr. Jackson addressed a mass rally.

Mr. Jackson shouted back: "If you want to stay out, I will lead you in the struggle!"

He had said earlier today that he was confident the mailmen would approve, in a nationwide ballot, the proposal to set up a non-government inquiry to examine all aspects of the dispute and make a binding settlement.

In the event of a return to work, the post office estimated it would take six weeks before postal services could get back to normal.

The post office has so far resisted all talk of arbitration to crack the deadlock in the dispute over union demands for a 13 percent wage increase and the post office's offer of 9 percent, with productivity strings.

Mr. Jackson said at the meeting of mailmen, who receive no strike pay, "Under the circumstances we have reached the best solution we could. I am convinced our decision was absolutely right."

He added that the union had pawned its future by payments totalling £750,000 ($1.8 million) to finance the stoppage.

But he said: "The decision will be your decision, taken at branch meetings on Friday and Saturday."

More pressure for an end to the stoppage, which has paralyzed letter and parcel services, came from the union's executive council. It has agreed to recommend an acceptance of the formula and a return to work.

This plan provides that, subject to a return to work, both sides nominate a member to the committee under a mutually acceptable chairman.

The inquiry will "look into the whole history of this damned dispute," one source said.

Mr. Jackson said the scope of the inquiry would be wider than mere arbitration and the settlement committee would have powers to discuss the financial state of the post office and productivity.

The productivity question has been a main stumbling block in attempts to break the deadlock.

Observers said the latest development was a climb-down for postal workers, who received no strike pay. "If I had more money the strike would have gone on. Facing reality, this is the best way out of the situation," Mr. Jackson said last night.

In another major British walkout—a strike by some 50,000 employees of the Ford motor firm—unions today rejected British Ford's latest offer of an average 14.3 percent wage increase, industry sources said.

U.S. Army, AF Tighten Belts For Economy

WASHINGTON, March 4 (NYT).—The Army announced yesterday that it would shut down a large number of its Nike-Hercules anti-aircraft missile installations and realign the duties of the remaining ones by June 30 in a cost reduction effort.

At the same time, the Air Force announced it would eliminate three fighter-interceptor bases and reduce the size of six others as part of a massive reorganization to meet its defense obligations for the least cost.

The Army is expected to save approximately $31 million a year, beginning in the fiscal year 1972, by closing 27 Nike firing batteries and 11 Nike headquarters organizations in 15 states.

The Air Force had no figures on the amount it hoped to save by reforms at 18 bases in 13 states.

$900,000 Ransom Frees Boy Seized 2d Time in Venezuela

CARACAS, Venezuela, March 4 (Reuters).—The 13-year-old son of one of Venezuela's richest men, kidnapped for the second time three days ago, was freed by his abductors today.

The boy, Leon Jacobo Taruel, seized by armed men as he was being driven to school on Monday, was found at the bottom of a cliff, about 50 miles west of Caracas.

It is believed his kidnappers lowered him to the cliff bottom to enable them to escape before he could attract attention and alert the police.

Members of the Taruel family said the ransom money—$900,000—was handed over to the kidnappers yesterday.

The boy's father, chain store tycoon Leon Jacobo Taruel, paid $110,000 for his son's freedom after the first kidnapping 14 months ago.

Police said the boy was found waving to people at the bottom of a cliff in the small town of Tovar, inhabited by German descendants who still speak German among themselves. Townspeople helped the boy to climb to safety at the top of the cliff.

Reliable police sources said the boy's father delivered the ransom to a bridge outside of Caracas, where he hung a suitcase containing the money on a pillar.

On both occasions, the boy was kidnapped by armed men who forced the family limousine to a halt as it was taking him to school.

Seven people saw Monday's kidnapping and heard the boy scream at his abductors: "Not again!"

Meanwhile, Venezuela's Army, Navy and police stepped up their search for kidnapped banker Enrique Dao, still missing 30 hours after his family paid part of a $450,000 ransom.

Costa Rica Victim Rescued

SAN JOSE, Costa Rica, March 4 (AP).—In a lightning-fast raid today, police rescued kidnapped millionaire Patrocinio Arrieta and arrested four of the kidnappers.

Detained were four university students, reportedly members of a subversive group called Central American Revolutionary Movement, police said. Mr. Arrieta was kidnapped Feb. 21 by five armed men and was reported in good health after his rescue.

$400,000 or Death

Four GIs Kidnapped By Turkish Terrorists

ANKARA, March 4 (AP).—An extremist group calling itself the "Turkish People's Liberation Army" kidnapped four American airmen today and threatened to shoot them if $400,000 ransom is not paid by 6 p.m. (1600 GMT) tomorrow. The deadline was later extended to 0400 GMT Saturday.

American officials said the four radar technicians were kidnapped by five armed Turks while driving in an official car from a radar and communications base outside Ankara to their billets in Ankara.

The Turks placed a barrier across the road and forced the Americans out of their station wagon and into another car. The Turkish driver of the Americans was tied up and left at the scene. The kidnappers drove off in both vehicles.

Police said they later arrested Mete Ertekin, 24, while he was parking the U. S. military station wagon near the Russian Embassy in Ankara. Ertekin reportedly confessed that he and four other leftists accomplished the kidnapping. He named the others but said he did not know where they were.

Ertekin is a former student at Middle East Technical University, whose campus adjoins the road where the kidnapping took place.

The kidnapped Americans were identified as Staff Sgt. Jimmie J. Sexton, of San Angelo, Texas, and Airmen 1st Class Larry J. Heaver of Denver, Richard Caraczi, of Stamford, Conn., and James M. Gholson, of Alexandria, Va.

Sgt. Sexton is married and his wife, who is expecting a baby, is in Ankara. Airman Heaver's wife is in Denver. The other two men are single.

Ransom notes sent to the semiofficial Anatolian News Agency and the state radio said the kidnapped Americans would be shot within 36 hours unless acceptance of the kidnappers' demands was broadcast.

The Ankara bureau of a widely-circulated Turkish daily, Cumhuriyet, received a new note late today purporting to be from the kidnappers and extending the deadline by 13 hours to Saturday.

It gave as the reason the failure of the Turkish government to inform the public and the Americans of their conditions. As of tonight the radio, while giving news of the kidnapping, made no announcement concerning the ransom.

The ransom note also called for the "liberation of Turkey by armed struggle" and urged all "Turkish patriots" to join the fight against "the United States and those under its orders in Turkey."

Meanwhile, the U.S. Embassy here said no decision had yet been reached on payment of the ransom. But informed sources said the final decision rested with the Turkish government.

It was the second such kidnapping in little more than two weeks. On Feb. 15 three armed Turks seized Sgt. Jimmy R. M. Finley, 25, of Fort Worth, Texas, but released him a few days later.

Casualties Soar for U.S. And South Vietnam Forces

SAIGON, March 4 (AP).—American combat deaths in Indochina rose last week to the highest total in six months, while South Vietnamese casualties soared to their highest point since the 1968 Tet offensive, the weekly casualty summaries showed today.

The allied commands also claimed that U.S. and South Vietnamese forces killed 5,107 North Vietnamese and Viet Cong last week.

The U.S. reported 69 Americans killed in action last week, ten more than the previous week. Many of the losses last week occurred in helicopters shot down while supporting the South Vietnamese forces in Laos. The command reported 281 Americans wounded, compared with 217 the week before.

South Vietnamese headquarters announced 898 of its troops were killed in action and 2,223 were wounded last week—more than double the 432 killed and 1,446 wounded the week before.

Saigon Troops, Reinforced, Begin Deeper Push Into Laos

By Craig R. Whitney

SAIGON, March 4 (NYT).—South Vietnamese troops in Laos have begun a new push west into the Ho Chi Minh Trail network, advancing by helicopter to landing zones that are 23 to 25 miles west of the South Vietnamese border, according to military spokesmen.

The U.S.-backed Vietnamese advance had been stalled for the last two weeks some 16 miles west of the border, while bloody fighting against North Vietnamese positions in Laos and Cambodia cost the South Vietnamese more casualties than at any time since the Communists' general offensive at Tet in 1968.

The new push, according to the announcement today, brings the spearhead of the South Vietnamese advance into Laos closer to Sepone, a strategic junction along the Ho Chi Minh Trail. Sepone appeared to be one of the key objectives of the invasion into Laos when it began on Feb. 8.

North Vietnamese resistance to the drive began to stiffen around the weekend of Feb. 21, when a South Vietnamese ranger battalion was decimated after Communist forces attacked its hilltop position just west of the border, and again last week in the battle for Hill 31.

An estimated 2,000 troops were moved into Laos on Tuesday to reinforce the 16,000 that Saigon claimed were there already.

[One American field commander, a colonel, said 31 U.S. helicopters were shot down while lifting South Vietnamese reinforcements into Laos Wednesday, the AP reported.

[The U.S. command stated that seven American helicopters were shot down and destroyed in the assault, with one American killed, six missing and ten wounded. The colonel said 24 others were shot down but were recovered or managed to fly back to Khe Sanh, AP said.]

Heavy fighting was reported today 11 miles northwest of the border crossing point of Lao Bao, where about 800 South Vietnamese paratroopers were attacked by a North Vietnamese regiment last night and today, a mile southeast of Hill 31.

In last night's battle, the South Vietnamese military spokesmen said, the paratroopers were supported by artillery and air strikes and killed nearly 400 enemy soldiers. Today, in the same general area, they destroyed two North

(Continued on Page 2, Col. 5)

Reds Boycott Talks, Citing U.S. Bombing

PARIS, March 4 (NYT).—The Communist chief delegates stayed away from the Paris peace conference today to protest American air attacks on North Vietnam. Their deputies attended the 105th session, which proved to be a grim and fruitless meeting.

Charging that the United States was massing forces near the 17th Parallel, the Hanoi delegation issued "a solemn warning to the American aggressors that, in launching a new adventure against the Democratic Republic of Vietnam, they would receive appropriate punishment."

A Communist spokesman said the United States had concentrated in the north the 5th Infantry, 10th Paratroop and Americal Divisions and parts of other units from as far away as Saigon, in addition to many "puppet" troops. In the last few days, he said, aviation in the northern part of South Vietnam had been "considerably" reinforced, and many American naval vessels were "prowling" off the North Vietnamese coast, including four aircraft carriers.

Ambassador David K. E. Bruce told the North Vietnamese and the Viet Cong that "instead of taking the opportunity these meetings offer to make peace and end the killing, you use them only to justify your continuing to wage war." He said they were not interested in a negotiated settlement.

Mr. Bruce told reporters later that the absence of the chief Communist delegates was a "maneuver."

Motorists, Passersby Entreated

Paris Police Stop Work To Ask Public Support

By James Goldsborough

PARIS, March 4.—Paris policemen stood in the streets flagging down traffic today, but instead of giving passing motorists tickets they handed out tracts and asked to be liked.

The two one-hour walkouts by the men in blue, who are barred by law from striking, came after several weeks of protests by the police unions. The policemen claim that they are not supported by the government, contradicted by the magistrature, calumnied in the press and disliked by everybody.

Between 11 and 12 this morning and again between 6 and 7 this evening the *gardiens de la paix* left their duties and tried to engage passers-by in conversation. The public took it good-naturedly, and even the groups of leftists who held counter-demonstrations during the same hours limited their hostility to sharp verbal exchanges with the policemen.

French commentators seemed to view the unusual walkout as a day of much-needed psychotherapy for the police. Le Monde showed a cartoon of Marianne [symbol of France] cradling a baby policeman in her arms. But it was obvious from the conversations between police and public, and from the remarks of police spokesmen on the radio, that the persecution feelings of the police are deep-seated. As Gérard Monate, head of the police union, commented, "We want to get out of our ghetto."

Prompted by 'Injustice'

Police Chief Maurice Grimaud, commenting on the walkout today, said it was not traceable to any particular act or trial, but was rather due to a "general feeling of incomprehension and injustice." Chief Grimaud, whom several policemen criticized today for being too liberal, remarked on an earlier occasion that American police were feared, British

enter-Left Coalition Wins ote of Confidence in Italy

...OME, March 4 (AP).—Premier ...lio Colombo won a vote of ...fidence today in the Chamber ...Deputies.

...he Senate was expected to ... by Saturday on a related ...on of confidence, the third ... Mr. Colombo formed Italy's ...postwar government last ...ust.

...e vote for Mr. Colombo was ...o 235. He needed a majority ...1.

...hough the Republican party ...rew its one minister and ...under secretaries from the ...nment last Saturday, the ... still threw its nine par...entary votes to Mr. Colombo. ...party has said that it would back Mr. Colombo on major issues.

The other parties of the governing center-left coalition, Mr. Colombo's Christian Democrats, the Socialists and the Unitarian Socialists, have 355 votes in the 630-seat chamber even without Republican support.

The Communists had demanded that Mr. Colombo resign when a Republican, Oronzo Reale, resigned as justice minister on Saturday. Instead, Mr. Colombo put his whole government program to a test vote.

The Socialists, the second largest party in the coalition, backed Mr. Colombo despite considerable strain within the alliance.

Bengali Solidarity a Factor

Pakistan Charges Indians Are Giving Arms to Rebels

By James P. Sterba

NEW DELHI, April 4 (NYT).—Radio Pakistan has charged that nine Indian "vehicles" loaded with arms and ammunition crossed the East Pakistan border and were stopped by West Pakistani troops.

The broadcast, heard late last night and again this morning, said the vehicles were stopped on their way through Thakurgaon, a town in the northern part of East Pakistan about 20 miles from the Indian border. The radio did not say when the incident occurred.

The Indian government has categorically denied that it has sent or will send any military supplies to the East Pakistanis, who have proclaimed their independence and are fighting an estimated 70,000 West Pakistani troops.

[Pakistan warned India Friday that interference "could only lead to serious consequences," the Associated Press reported from Rawalpindi.

[The Pakistan government charged that four Indian warships harassed a Pakistani merchant vessel, the Ocean Endurance, for five hours in the Arabian Sea.]

[Reuters news agency reported from New Delhi that India denied the Pakistani allegation.]

Numerous efforts, however, were under way in the Indian state of West Bengal, which borders on East Pakistan, to organize aid efforts, and several groups of volunteers have reportedly crossed the border with supplies of food, medicine and ammunition.

Underground Network

Senior officials in Calcutta said privately Friday that discussions for organizing an underground arms and supply network were under way, and they expressed strong support for the project.

"It is inevitable, and of course we will never admit it," a high government official in Calcutta said in an interview. He said it would be politically dangerous not to help the East Pakistanis, because most of the population on both sides of the border are Bengalis, and support in West Bengal for the East Pakistanis has been virtually unanimous.

Border guards in West Bengal have been ordered to turn back what they consider to be "thrill-seeking teen-agers" attempting to cross into East Pakistan. But the border is so loosely patrolled that it is unlikely that those wanting to cross could be stopped.

There have been numerous reports of Indian border guards turning their backs on those crossing the border with supplies and saying, "I didn't see anything."

Mrs. Gandhi Speaks

Indian Premier Indira Gandhi said today that while India does not interfere in the internal affairs of other countries, it is not proper or possible to keep quiet concerning the events in East Pakistan. Speaking in Hindi to members of the All India Congress Committee, Mrs. Gandhi said:

"We must act in a constructive way to see that we do not do anything which adds to the difficulties of the people there."

Substantial numbers of refugees were reported to be crossing the border into Indian territory.

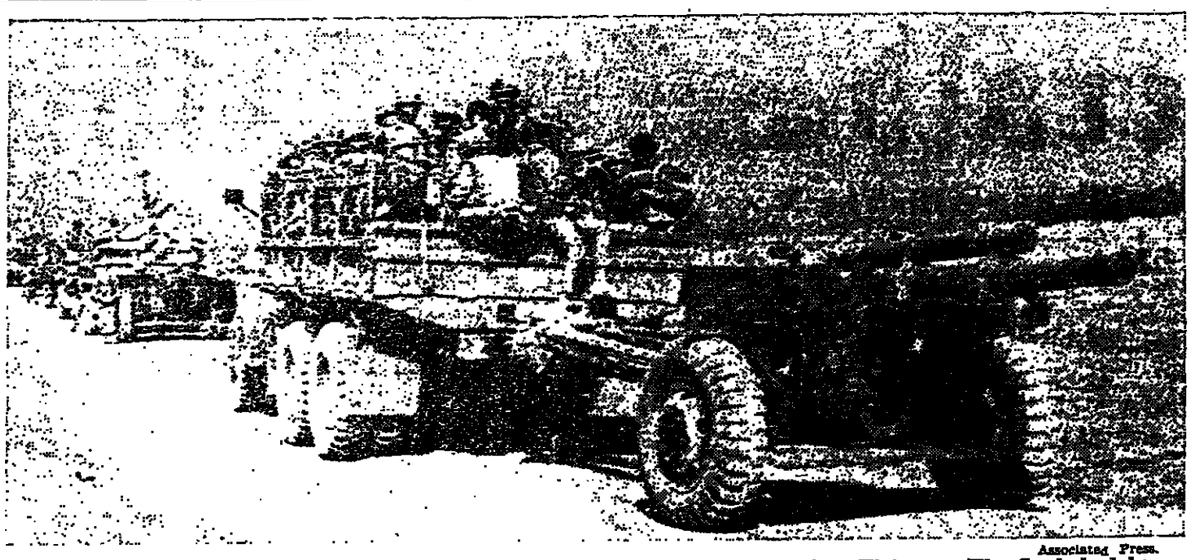

Indian Press Agency reporters stationed along the border said hundreds of families, mostly women and children, crossed the Ganges from Rajshahi, where West Pakistan troops were reported to have moved through the town against East Pakistan adversaries.

Americans to Fly Out

RAWALPINDI, West Pakistan, April 4 (AP).—More than 600 Americans in East Pakistan will fly from Dacca to Karachi, West Pakistan, in Pakistan International Airlines—PIA—Boeing-707 planes in an airlift scheduled to start today, official airline sources said here yesterday.

Plans were also being made to fly out British, French and Russian nationals.

According to a U.S. Embassy spokesman, about 160 Americans will leave Dacca daily from today through Wednesday.

Associated Press.

MOVING OUT—South Vietnamese marines prepare to leave their command post at Khe Sanh for new positions along the coast of Vietnam. Khe Sanh had been a staging area for the recent incursion into Laos.

Plus 450 GIs Killed in Support

Saigon General Reports U.S. Lost 104 Copters of 608 Hit

SAIGON, April 4 (UPI).—Communist gunners damaged 504 U.S. helicopters during the six-week Laos operation and shot down 104 of them, Lt. Gen. Hoang Xuan Lam told South Vietnam's Senate Defense Committee during a weekend briefing at Dong Ha.

Gen. Lam, South Vietnamese commander of the Laos operation, also said that about 450 American servicemen were killed supporting the drive. His figure on U.S. casualties and helicopters hit has not been confirmed by the U.S. command. A copy of his report became available today.

The U.S. command listed a total of 103 American helicopters destroyed while supporting the incursion into Laos, five of them due to operational failure. The command said 75 of the 103 were combat losses in Laos and 23 were combat losses in Vietnam. The U.S. command reports as lost only those helicopters which are destroyed.

Of the 104 helicopters Gen. Lam reported shot down, "About half ... were abandoned in southern Laos," he said.

His statement was the first disclosure of the number of American helicopters struck by Communist ground fire in the Laos operation.

Red Offensive Reported

Communist troops, meanwhile, launched new ground assaults on South Vietnamese Firebase No. 6 today and shelled the nearby headquarters base of Tan Canh in the fifth day of a Central Highlands spring offensive, field reports said.

The South Vietnamese command reported that 1,510 North Vietnamese and Viet Cong had been killed since Wednesday morning in the fighting for Firebase-6.

North Vietnamese Army Gen. Hoang Minh Thoa, commander of a major force once based astride the Laos-Cambodia border, has moved into South Vietnam to take personal command of the spring offensive, military sources reported. They said Gen. Thoa moved his command post into Vietnam late last week.

Elsewhere in South Vietnam, the U.S. command reported seven Americans killed and 43 wounded in three battles yesterday.

Another four U.S. soldiers were killed and six wounded Thursday in an accidental artillery attack on an outpost near the Demilitarized Zone.

A U.S. spokesman said one artillery shell fired by "friendly" forces struck a night bivouac manned by troops of the 101st Airborne Division's 3d Brigade. The incident was reported "under investigation."

[Five Americans were killed and one is missing as a result of the battle when the Communists overran Firebase-6, Wednesday, the U.S. command reported, AP said. Two more Americans were reported wounded. Four of those killed and the missing man apparently were members of the U.S. advisory team that the Viet Cong claimed to have captured. The others were crewmen aboard two helicopters that were shot down in the fighting.]

A U.S. Huey helicopter carrying four crew and ten South Vietnamese troops crashed 78 miles southwest of Saigon this morning, killing all on board. The crash is under investigation, the American command said.

South of Firebase-6, government forces reported killing 63 guerrillas in Plei Ku and Dar Lac Provinces for the loss of four dead and eight wounded.

In the extreme north of the country, the Khe Sanh command post from which the incursion into Laos was launched, was hit yesterday by 30 rounds of 130 mm. artillery fire. Casualties were light among the few hundred South Vietnamese and Americans who are expected to abandon the base within a few days.

North Vietnamese mortarmen unloosed a 100-round mortar bombardment early yesterday on Duc Duc, a district capital they had all but levelled Monday with a heavy rocket and ground assault.

The bombardment of Duc Duc resulted in only light casualties, South Vietnamese military headquarters reported.

In the assault early in the week, two battalions of North Vietnamese stormed the town and killed more than 150 civilians and wounded an additional 150. Hundreds of homes were levelled by fire and nearly 2,000 Vietnamese of the town's 10,000 inhabitants were homeless.

In Phnom Penh, the Cambodia high command reported U.S. helicopter gunships mistakenly strafed Cambodian troops last Tuesday, killing one Cambodian soldier and wounding eight. Buddhist monks said the same attack killed eight monks and 20 other civilians. The incident occurred at Kampot, 80 miles southwest of Phnom Penh.

Gromyko Asks U.S. Move to Ease Tension

(Continued from Page 1)

is sometimes asked: how trustworthy is this, what is the real value of agreements with some states if they do not always observe these agreements?" he added.

In his speech, Mr. Gromyko had said that the United States, in its Indochina policy, had trampled the Geneva agreements of 1954 and 1962 which had called for non-interference in Indochinese and Laotian affairs.

In an indirect attack on the Chinese, he said: "Sometimes this question is posed also in a different, provocative way when any agreement with capitalist states is declared to be something just short of collusion."

"We have no territorial claims to any state in the world, and have no intention of doing damage to anybody's legitimate rights and interests, but we also demand the same in respect of our country. Those who are really prepared to reach agreement with us on questions demanding solution will always find the Soviet Union a serious partner with a sense of responsibility," he said.

The congress is expected to end Friday.

New Fast-Selling U.S. Disc Is 'Battle Hymn of Lt. Calley'

By Robert Barkdoll

WASHINGTON, April 4.—A record bearing the title "The Battle Hymn of Lt. Calley" is enjoying phenomenal success—300,000 claimed sales in three days—as part of the surge of public sympathy for the 27-year-old lieutenant following his murder conviction.

Music publisher Shelby Singleton said from Nashville, Tenn., Friday that the talk-song, featuring singer Terry Nelson, has been in the hands of radio stations for weeks. But he said that they hesitated to play it until the public responded as it did to the Calley verdict.

The words, sung to the tune of "The Battle Hymn of the Republic," go in part as follows:

My name is William Calley,
I'm a soldier of this land,
I've tried to do my duty
And to gain the upper hand;
But they've made me out a villain,
They have stamped me with a brand
As we go marching on . . .

* * *

I've seen my buddies ambushed
On the left and on the right,
And their youthful bodies riddled
By the bullets of the night,
Where all the rules are broken
And the only law is might,
As we go marching on . . .

* * *

While we were fighting in the jungles
They were marching in the streets,
While we were dying in the rice fields
They were helping our defeat
While we were facing bullets
They were sounding a retreat,
As we go marching on . . .

One part of the song deals specifically with the My Lai incident. It says:

We took the jungle village
Exactly like they said.
We responded to their rifle fire
With everything we had,
And when the smoke had cleared away
A hundred souls lay dead . . .
Sir, the soldier that's alive
Is the only one can fight.
There's no other way to wage a war
When the only one in sight
That you're sure is not a VC
Is your buddy on your right.

79 Pct. in Poll In U.S. Oppose Calley Verdict

NEW YORK, April 4 (Reuters).—Results of a poll released last night show that 79 percent of 523 Americans interviewed disapproved of the court-martial finding that Lt. William L. Calley jr. was guilty of murdering South Vietnamese civilians. The verdict was approved by 9 percent and 12 percent had no opinion.

The poll, conducted for Newsweek by the Gallup organization, showed that 81 percent felt that the 27-year-old lieutenant's life sentence was too harsh. It was called fair by 11 percent and too lenient by 1 percent while 7 percent had no opinion.

Of the 79 percent who disapproved of the verdict, a fifth felt the incident was not a crime, while seven tenths believed that many others besides the lieutenant shared responsibility for what happened.

President Nixon's decision to release Lt. Calley pending an appeal was endorsed by 83 percent in the poll.

Army Trial Is Defended

(Continued from Page 1)

document said, "the Army would have failed to meet its obligation to the laws of our nation had it not acted."

The Army document said that the Geneva and Hague conventions on the rules of war, including those adopted in 1949, had been ratified by the United States and accordingly had to be regarded as part of the "supreme law of the land."

The Geneva conventions, including their obligation to bring to trial individuals alleged to have committed battlefield violations, "cannot be abandoned and adopted again at will by United States armed forces, depending upon the character of the conflict or the non-observance of the conventions by the enemy."

When the allegations about the My Lai incident were made in 1969 by a former soldier, Ronald L. Ridenhour, the document said, "the Army had only one legal course of action—to investigate the allegations and prosecute the accused, if the evidence so warranted."

The document also said that the Army was aware it had "a moral and legal obligation to adopt a continuing policy of investigating fully all substantive allegations of violations of the laws of war involving American personnel.

"Every allegation of misconduct on the battlefield—regardless of the rank or position of the person purportedly responsible—must be thoroughly explored," the statement said.

Two high Army officers, Maj. Gen. Samuel W. Koster and Brig. Gen. George H. Young jr., were among those who were accused originally of having attempted to prevent the public disclosure of the My Lai events. Gen. William C. Westmoreland, the Army chief of staff, has recommended that the two generals be demoted, but criminal charges were dropped.

Army Chief 'Surprised'

(Continued from Page 1)

meeting, a statement issued by the chairman, Sen. John Stennis, D., Miss., noted that the case was still in judicial channels for consideration "of the proper punishment, including the question of leniency if this action is deemed to be proper."

Sen. Barry Goldwater, R., Ariz., a committee member and a retired major general in the Air Force Reserve, said in a statement: "Had I been the commanding general of the Army at the time of the My Lai incident, I would have admitted that such an incident did occur, expressed my deep and profound regret, and then written it off as part of the brutality and uselessness and waste which are natural ingredients in any war."

McGovern's View

LOS ANGELES, April 4 (WPI).—Sen. George McGovern, D., S. D., a presidential hopeful, said here yesterday that Lt. Calley's conviction "in no way assuages the guilt of all of us" in the war in Indochina. Current protests against the conviction indicate to him, the senator said, that "the American people are disturbed by the fact that one young junior officer should bear the responsibility for all of us in the war."

Iran Accuses Maoists of Plot

TEHRAN, April 4 (UPI).—Iran today blamed Maoists for a series of recent fires, robberies, murders and planned assassinations it said constituted a plot against the government.

A government spokesman said that confiscated literature and confessions of plotters indicated the Maoists had issued orders to kill government and military leaders, blow up bridges, set fire to cinemas and stir up disorder on university campuses.

Some of the Communists, including the ringleaders, were executed in Tehran on March 17, the government said. Another 50 are awaiting trial by military court.

A top security official told newsmen weapons and ammunition had been smuggled from outside the country for attacks against police posts.

Abbie Hoffman One of the Leaders

U.S. Leftists Tape Programs For Hanoi to Beam to GIs

By Mike Jahn

NEW YORK (NYT).—With a mixture of intense radical piety and mild international intrigue, a group of radical young Americans is preparing a series of radio programs for use by Radio Hanoi.

The group, led by Abbie Hoffman and Rennie Davis—members of the "Chicago Seven" who were tried for conspiracy—has formed "Radio WPAX." The group says it has delivered four and a half hours of taped music and commentary to the North Vietnamese delegation to the Paris peace talks. The programs are scheduled to be broadcast in half-hour segments three times daily, starting early this month, according to a spokesman for the group.

The programs, aimed at American servicemen, are designed as "an alternative to the programming of the Armed Forces Network."

'Voice of Pentagon'

In a letter sent to persons considered sympathetic to WPAX, Hoffman said: "The Armed Forces Network is the voice of the Pentagon. In addition to censored news, any music with references to peace, black liberation, alternative culture or other 'controversial' material is also banned.

"We have an obligation to fill this void," the letter continued, "and assure that GIs have the opportunity to hear another opinion and have the proper perspective."

The group is quick to assert that the programming "in no way will advocate open rebellion or desertion," unlike the Tokyo Rose or Axis Sally programs of World War II.

According to John Giorno, a poet and peace worker who is a leader of WPAX, the idea for the programs originated with Davis.

However, Mr. Giorno said, WPAX would also have an advisory panel of some 50 persons, including Dwight McDonald, the widely known literary critic and staff writer for the New Yorker.

'They Totally Dug It'

Mr. Giorno said the North Vietnamese approved the idea several months ago, after which WPAX was organized to produce the programs.

"They totally dug it," Mr. Giorno said when asked the initial North Vietnamese reaction to the proposal. "We got together the first programs and Abbie flew over with them. He arrived back (March 24) and said we can do anything we want to, as much as we want."

Mr. Giorno said the first program "started with a rap explaining what WPAX was, then went into our call letters and theme, which is Jimi Hendrix's 'Star-Spangled Banner.' The Beach Boys are doing a logo and jingles, but we haven't gotten that yet. After Hendrix, the People's Peace Treaty was read, and the Vietnam veterans signed it. Each one gave his name, went through a little emotional thing, some cried, some said a few words. It was really a nice tape. That . . . was followed by a music program, and that was followed by Allen Ginsberg, who put together a half-hour for us."

A Secret Studio

WPAX operates out of dusty offices in the warehouse-and-loft area in Lower Manhattan. There is also a studio, but leaders of the group keep its location secret.

"Otherwise it would just be trashed [destroyed, presumably by federal officials] or robbed," Mr. Giorno says.

So far, the group says, it has encountered no reaction of any sort from the federal government, but "something" is expected to happen.

At WPAX meetings there is much talk of the Federal Treason Act and the Trading With the Enemy Act, but the group feels it can avoid suppression under these laws since WPAX interprets them to apply to wars declared by Congress, which does not include the American involvement in Southeast Asia.

"The way we've set up WPAX," Mr. Giorno says, "if they go after us it will be a bigger trial than the [Chicago] conspiracy trial."

Nixon Personally Will Make Ultimate Decision on Calley

(Continued from Page 1)

factor but the President's belief that a "qualitative" decision was needed.

The President's involvement was "entirely discretionary," Mr. Ehrlichman said. The President, under the Constitution, is the superior convening officer in a technical sense and therefore has the right to intervene, the aide said.

"The President here is, in effect, invoking his inherent powers as commander in chief in a review process that is not strictly legal in nature," Mr. Ehrlichman added.

Mr. Nixon has spent much time considering the matter this week and has consulted members of his cabinet and others, including Treasury Secretary John B. Connally, Health, Education and Welfare Secretary Elliot L. Richardson and presidential counselor Robert H. Finch, all of whom have been in San Clemente.

Laird, Mitchell Sounded

The President also has discussed the matter at length by telephone with Defense Secretary Melvin R. Laird and Attorney General John N. Mitchell, Mr. Ehrlichman said.

Asked if the President knew, when he ordered Lt. Calley removed from the stockade, that the Army commander was planning to do the same thing, Mr. Ehrlichman said the President did not. If that was the commander's plan it was never communicated to the President, Mr. Ehrlichman said.

Asked if the President's action yesterday was designed to quiet public clamor over the matter, Mr. Ehrlichman said that was certainly not a motive.

Under questioning, Mr. Ehrlichman also said he did not believe that the President's decision yesterday would affect military officers as they review the case. Similarly, he said that commissioned officers who have been convicted by a court-martial frequently are confined to quarters pending appeal rather than sent to a stockade.

Under the Code of Military Justice, the Calley case will be reviewed first by the commander of the Third Army, in whose territory the trial was held. If his review, expected to take several months, does not result in dismissal of the case, it goes automatically to a court of military review.

Civilians' Judgment

That panel of military judges makes a similar review. From that court, the case may go to a civilian-staffed court of military appeals, either on appeal by Lt. Calley or because the judge advocate certifies it for such a review. Finally, the case would go to the secretary of the Army.

At each review and appeal level, the sentence may be reduced. At none of them can it be increased.

Wherever the case ends in the judicial process, it must be submitted to the President for final decision.

Lt. Calley can at any time apply to the civil courts for a writ of habeas corpus, challenging the Army's detention of him. If he did, the matter could be appealed to the Supreme Court.

The question of a pardon is not a live one at this time, Mr. Ehrlichman suggested, because the defendant has not begun serving his sentence. Appeals for pardon are not normally taken, he said, until the sentence has been imposed and service of the sentence has begun.

Disgraceful, Russians Say

MOSCOW, April 4 (UPI).—Soviet newspapers yesterday denounced as "disgraceful" the decision by President Nixon to delay the imprisonment of Lt. Calley.

"This disgraceful decision is a logical continuation of the entire imperialist policy of the United States, the nature of which is treachery, oppression and violence," the Young Communist League newspaper Komsomolskaya Pravda declared.

Pravda alleged that U.S. military leaders are afraid that the Calley case will turn the youth against the Army, and for that reason the Pentagon has organized "a campaign in support of this murderer, who has become a symbol of America's disgrace."

Not Only Case, Hanoi Says

TOKYO, April 4 (AP).—The Hanoi army paper said yesterday that Lt. Calley "is not the sole culprit of the Song My (My Lai) massacre. It added: "There have been many other bloody massacres daily committed by tens of thousands of U.S. troops in South Vietnam."

Israeli Cabinet Not to Meet

(Continued from Page 1)

Soviet Union, she said: "Anyone who proposes Israeli agreement to the opening of the canal as a lever to obtain total Israeli withdrawal from Sinai and the Gaza (Strip) will certainly not be surprised by Israel's outright rejection of the plan."

Mrs. Meir added that this plan should be seen as a move to organize pressure on Israel to agree to the opening of the canal in the framework of the "imposition on us of an Egyptian-Soviet political settlement."

Mrs. Meir's unconcerned speech apparently reflected her belief that Egypt was in no position to make good its military threat and that neither the Soviet Union nor the United States was in any hurry to extract Israel's plans.

The attraction for Israel of any partial settlement would lie in sidestepping Israeli refusal to evacuate all Arab land captured in 1967 and at the same time gaining time without having to sacrifice all its strategic and tactical advantages in the Sinai.

Decisive Month

CAIRO, April 4 (NYT).—President Anwar Sadat is reported to regard April as "the decisive month" for either a political settlement or war with Israel.

Al-Ahram, the authoritative Cairo daily, said yesterday that an official statement three days ago outlining Mr. Sadat's views on the Middle East conflict represented "the beginning of the end" in Cairo's search for a settlement.

The statement offered a reinstatement of the Suez Canal cease-fire for a fixed period if Israel would agree to Mr. Sadat's proposal for a partial withdrawal in the Sinai Peninsula to permit the clearing and reopening of the Suez Canal.

Angry Green Beret Recounts Executions

(Continued from Page 1)

mised himself in lie-detector tests and questioning under sodium penthathol (truth serum).

● First drugged with morphine, he was killed by Mr. Marasco in a motorboat with two shots to the head from a .22-caliber pistol equipped with a silencer. His body was tossed overboard in a mail sack weighted with chains and tire rims by three officers in the boat. This was on June 20, 1968.

● A cover story was fabricated in which a Japanese-American fitting Chuyen's description was sent on an air-supported "secret mission" near the Cambodian border.

● The question of what to do with Chuyen had led to meetings between Green Beret officers and CIA officials. The CIA in Saigon finally sent a message reading "Return agent to duty" and warning of "flap potential." The message, however, arrived after his death.

Mr. Marasco said Chuyen was a "principal agent" whose function was to hire, train, pay and coordinate sub-agents on intelligence missions. He refused to describe the ultimate aim of the missions, but referred the questioner to a "fact sheet" drawn up by Mr. Moore to publicize his new novel.

The Moore "fact sheet," reportedly based on pretrial hearings in the case, stated that Chuyen had been involved in a secret Special Forces unit known as B-57, whose goal was to pick military targets in Cambodia for a projected incursion by U.S. and South Vietnamese forces. The unit also was to train 3,000 Cambodian troops to guard the country from communism should Prince Norodom Sihanouk be deposed.

In reality, Mr. Marasco stated, Chuyen was a triple agent, whose real allegiance was to an organization led by South Vietnamese Gen. Duong Van Minh. The success of this group, which was striving for a coalition government, would have led to "Communist control" and "massive extermination," Mr. Marasco asserted.

When the charges against the Berets were dropped, the secretary of the Army, Stanley R. Resor, said that the CIA was "not directly involved in the alleged incident."

But Mr. Marasco maintains that a vaguely worded execution order was passed to his superior officers in Saigon by a "CIA operative whose cover was a lieutenant colonel, United States Army." He quoted the wording as: "We cannot officially sanction it, but elimination is your best course of action."

"The CIA does not give written orders," Mr. Marasco said. "When someone in the CIA says to you ... your best course of action is elimination, that means we approve it."

'Hundreds' Executed

Mr. Marasco claimed there had been "hundreds"—"and I'm being conservative"—of summary executions in South Vietnam. Most, he said, were carried out by the Provincial Reconnaissance Unit, which he described as an assassination squad of Vietnamese natives "trained, financed and equipped by the CIA," but others were carried out by American "advisers," he said.

Mr. Marasco resigned from the Army on Oct. 14, 1969, and shortly thereafter was injured in a car collision in New Jersey that kept him on a hospital critical list for ten days.

Because he is no longer in the Army, he is not subject to court-martial. Previously, he has made guarded statements on the killing, but has never before admitted it. He said he is receiving no money from the novel "Court-Martial."

Did he regret his actions? "No," he said. "I felt that it was my duty. Anything I did in military duty in Vietnam was with the biggest patriotic motives. I never wake up in the middle of the night screaming."

Funds Lacking to Continue Plowshare

U.S. to End Atoms-for-Peace Tests

WASHINGTON, March 4 (AP).—Reflecting a lack of money and the outcries of environmentalists, the United States is suspending nuclear tests aimed at finding peaceful uses for atomic energy.

The fiscal year beginning July 1 will be the first in which there will be no nuclear device exploded under the Plowshare program since it began in 1958.

"There just isn't any money for any kind of test in fiscal 1972," said an Atomic Energy Commission spokesman. "We don't know at this point whether the AEC will ask for money for Plowshare detonations in fiscal 1973 . . ."

The decision to suspend underground explosions comes at a time, say AEC officials, when the Soviet Union's atoms-for-peace program is "not only getting ahead of us but is already ahead of us."

The suspension comes on the heels of U.S. testing of the cleanest nuclear device—in terms of radioactivity—in the 100,000-ton range.

The last explosion before the testing halt is yet to come, AEC sources say. It will be called "Miniata" and will involve an entirely new class of Plowshare explosives designed specifically for stimulating natural gas production.

Project Plowshare was launched during President Dwight D. Eisenhower's administration. The federal government since mid-1958 has spent $145 million on Plowshare, including the cost of 24 underground blasts.

On Flights Beyond Moon

Cosmic Rays Striking Eyes Could Endanger Astronauts

By Thomas O'Toole

WASHINGTON, March 4 (WP).—The light flashes seen by Apollo crews near the moon, caused by cosmic rays passing through their eyes, are believed to pose threats to future astronauts making flights beyond the moon.

"There is concern about this phenomenon," said Dr. Philip K. Chapman, the scientist-astronaut who served as mission scientist on last month's Apollo-14 flight. "The possibility is there that it could result in very serious damage to the eyes and brain on long space flights to Mars."

The four Apollo crews who have seen the flashes in their eyes suffered no apparent injury, but detailed studies of the way the Apollo-14 crew was hit with cosmic rays between the earth and moon have scientists worried about crews undergoing prolonged exposure of a year or more to the same showers of cosmic ray particles.

When the crews of Apollo-11, 12 and 13 reported seeing the flashes, most scientists felt they were the result of a harmless phenomenon called Cherenkov radiation. This is something like an airplane penetrating the sound barrier; in that the cosmic ray particle creates a shock wave in the eye's vitreous humor that triggers a light flash.

"We don't think that anymore," said Dr. Cornelius Tobias, a biophysicist at California's Lawrence Radiation Laboratory. "The most likely explanation now is that the particles are interacting directly with the retina of the eye."

What convinced scientists that cosmic rays were striking the astronauts' eyeballs was an experiment conducted by the Apollo-14 crew of Alan Shepard, Edgar D. Mitchell and Stuart A. Roosa.

The experiment took place Feb. 8, when the astronauts were 132,000 miles from earth on their way home from the moon.

The astronauts darkened their cabin and spent 46 minutes watching for the flashes, part of the time with their eyes opened, part of the time with their eyes closed and part of the time with their eyes opened but conditioned against the dark by a flashlight shone into their eyes.

Forty-eight flashes were reported by the crew, some like stars in their eyes, others like streaks across their eyes and a few like clouds of lightning diffused through their eyes.

The entire crew said they saw the flashes even after shining the flashlight in their eyes.

"This told us we weren't getting echoes through the vitreous humor," one scientist said. "It told us we were getting direct impacts on the retina or the optic nerve, which could not be conditioned against by a flashlight."

In a series of remarkable experiments at the Lawrence Radiation Laboratory, Dr. Tobias and research physician Dr. Thomas P. Budinger exposed their own eyes to alpha particles shot out of a cyclotron.

"We get some of the same effects as those described by the astronauts," said Dr. Tobias, who in 1952 predicted that men would see the light flashes in space. "We don't get all the effects, but then we were only exposed to fairly light particles like neutrons and helium ions."

The astronauts said some of the flashes were like streaks, which the two scientists said they reproduced when they shot alpha particles through their eyes from the sides. The star-like flashes came about, the scientists said, when particles were beamed into the fronts of their eyes.

All three Apollo-14 astronauts reported flashes like lightning clouds, which Dr. Tobias said he reproduced by shooting particles straight into his optic nerve. Comdr. Mitchell said he saw a halo around one flash, which Dr. Tobias said might be caused by a particle "stopping" at the retina.

Scientists say they are far more concerned about the effects of cosmic rays on the eye and brain than they are about what causes them.

"We haven't proved that it's dangerous," said Dr. Chapman, "but we haven't proved that it's not dangerous."

The Apollo-15 astronauts who leave for the moon in July will be asked to wear special helmets to let scientists identify the cosmic ray particles passing through their eyes. The Apollo-15 crew will also be asked if they notice any twitching of the mouth or fingers when they see the flashes, to see whether the brain somehow is involved.

While nobody shows any concern for astronauts on short flights to the moon, it was obvious that longer flights to Mars are suspect. The only way to shield men on long flights might be by placing an electromagnetic field around the spacecraft, which might also interfere with radio communications back to earth.

Charles M. Duke

Thomas K. Mattingly

John W. Young

NASA Appoints Apollo-16 Crew

HOUSTON, March 4 (UPI).—The U.S. space agency today named veteran moon pilot Comdr. John W. Young and rookies Comdr. Thomas K. (Ken) Mattingly 2d and Charles Duke to fly the Apollo-16 lunar landing mission in March, 1972.

Comdr. Young, 40, will command the 12-day mission and land on the lunar surface with Mr. Duke, 35, Comdr. Mattingly, 34, will remain in lunar orbit and later conduct a spacewalk.

Fred W. Haise jr., who first flew aboard the abortive Apollo-13 moonflight, was named backup commander for Apollo-16, the next to last mission in the Apollo program. The other backup pilots are Maj. Stuart A. Roosa and Comdr. Edgar D. Mitchell, two of the astronauts on the just completed Apollo-14 mission.

FBI's Hoover Faulted Over Firing Agent

College President Says Report Is Erroneous

By Jack Nelson

WASHINGTON, March 4.—The president of the nation's largest college of criminology has accused FBI Director J. Edgar Hoover of giving an erroneous account of the case of Jack Shaw, an FBI agent who was pressured into resigning by Mr. Hoover.

In a letter to Attorney General John N. Mitchell, Donald H. Riddle of New York's John Jay College of Criminal Justice defended Mr. Shaw and wrote that Mr. Hoover's account contained at least four errors.

Mr. Riddle's letter, made public yesterday, was written Feb. 19. It asked for a reply, but Mr. Riddle said Mr. Mitchell has not answered. A spokesman for Mr. Mitchell said the attorney general is "satisfied" with Mr. Hoover's handling of the Shaw matter.

Mr. Shaw, 37, has been unable to find a law enforcement job since Mr. Hoover accepted his resignation "with prejudice" last Sept. 24. Mr. Hoover acted after FBI agents searched wastebaskets in the New York FBI office and put together parts of a 15-page letter Mr. Shaw had written to a professor at John Jay College. The letter, which was never mailed, criticized Mr. Hoover and the FBI in some areas, and defended them in others.

Trouble Over Objectivity

Mr. Riddle wrote that a careful reading of Mr. Shaw's complete letter showed "it was Mr. Shaw's objectivity that got him in trouble."

Mr. Riddle's letter was released here by Sen. George McGovern, D., S.D., who at Mr. Riddle's request inserted it in the Congressional Record. Sen. McGovern, who has called for a congressional investigation of Mr. Hoover, said the letter "underlines the need for a general review of the administration of the FBI."

Mr. Hoover's account of the matter was contained in a letter Mr. Mitchell wrote on Feb. 4 to George Leifer, chairman of the student coalition at the college. Mr. Leifer had sent a petition signed by more than 1,000 students to President Nixon urging that the Shaw case be investigated.

Mr. Mitchell, whose letter was based on Mr. Hoover's account, wrote that Mr. Shaw had told his superiors in the FBI that he wrote the letter because the professor, Abraham Blumberg, had not given him ample time in class to answer the professor's criticism of the FBI.

15 Agents at School

Mr. Mitchell also wrote that at Mr. Hoover's direction, John F. Malone of the New York FBI office told Mr. Riddle that 15 agents attending the college at government expense would be withdrawn as long as the professor remained on the staff.

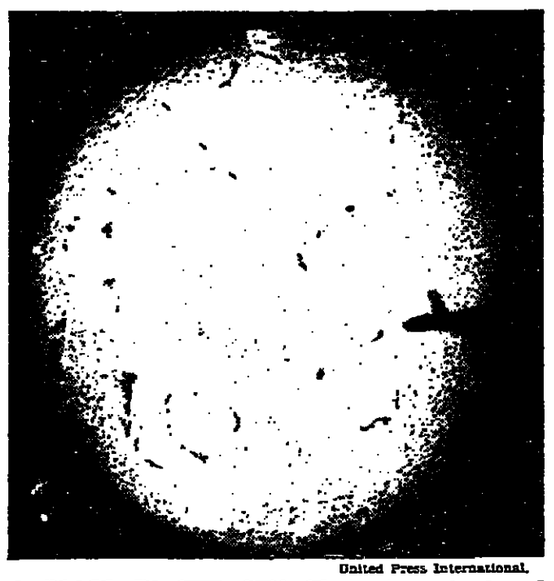

Mr. Riddle, according to Mr. Mitchell's letter, "commented that the professor was at fault in not providing the agent with an ample forum and the time to reply. . . ."

In his letter to Mr. Mitchell, Mr. Riddle said that this version "is simply not true." He wrote that the professor and Mr. Shaw, as well as other students of the professor, could verify that Mr. Shaw had been given ample opportunity to discuss the matter and had taken advantage of it.

Mr. Riddle said Mr. Shaw also had been compelled by the FBI to give a sworn statement on the matter which would "support this version."

Mr. Riddle wrote that the college's records show that only four of the 15 agents attending the college were being sent by the FBI at government expense and the others were attending of their own volition and on their own time. He said the college's students (about 3,500 of the 5,000 students are lawmen or other in-service personnel in related fields) are especially concerned that Mr. Hoover ordered the agents attending the college at their own expense, as well as the other four, to withdraw.

A PLACE IN THE SUN—That strangely-shaped shadow on the face of the sun is that of a commercial airliner which got in the way of the telescope-camera taking a routine picture. Although the sun is 830,000 miles in diameter and the plane a few dozen feet long, the disparity in size is due to the objects' relative distance from the camera at Penn State.

Nixon Appeals to Congress To Enact Revenue Sharing

By Carroll Kilpatrick

WASHINGTON, March 4 (WP).—President Nixon today asked Congress to approve a $2 billion manpower revenue-sharing program which includes a plan whereby states and cities could use funds for temporary public service jobs to combat high unemployment.

In a special message, the President said that state and local governments should be free to take over the major responsibility, with federal financing, for training the unemployed and unemployable.

The future of over a dozen different manpower programs, including institutional and on-the-job training, the Neighborhood Youth Corps, New Careers, Operation Mainstream, JOBS and the Concentrated Employment Program, would be decided by state and local governments.

"My proposal neither mandates nor terminates any programs," the President told Congress. "It provides that the continuation, expansion or modification of each program would be determined, as it ought to be, by the test of performance alone—and determined by the state or community which the program serves."

Jobless 'Trigger'

Like the manpower program he proposed last year, the new one contains the so-called "trigger" feature, which provides that new funds will be allocated when national unemployment reaches 4.5 percent or more for three consecutive months.

An additional 10 percent of funds appropriated would be made available to state and local governments to use in creating jobs in sanitation, health, conservation or other areas of "public service employment."

In today's message, the President said that "transitional and short-term public employment can be a useful component of the nation's manpower policies." But, unlike a plan he vetoed last year, the public service jobs would be under local rather than federal control.

The one restriction would be that an individual must be trained for a regular job and could hold the public employment post no more than two years.

The President's message, his second on special revenue sharing, said that the federal government should make available to the states $2 billion in the first full year of the new program, an increase of $435 million over funds presently available.

The President will fly to Rochester, N.Y., tomorrow to explain his special revenue plan for urban development to state and local officials. He will send a message to Congress on the plan at noon.

Nixon Cited For Freezing Cities' Funds

By Spencer Rich

WASHINGTON, March 4 (WP).—The U.S. Conference of Mayors and the National League of Cities accused the Nixon administration yesterday of shortchanging the nation's cities by freezing approximately $1 billion of the funds voted by Congress for urban programs.

"We plead with you to awaken the administration to the problems of this nation and release this money," said Lee Alexander, Democratic mayor of Syracuse, N.Y., speaking for the two organizations at a Senate Housing subcommittee hearing.

"The cities are getting shortchanged by the administration," charged Thomas J. D'Alesandro, Democratic mayor of Baltimore, also representing the two groups.

Subcommittee chairman John J. Sparkman, D., Ala., served notice that he and other powerful senior Democrats intend to challenge the President's withholding of funds voted by Congress. He called the freezing of the money "an uncalled-for rebuff to Congress and an undue use of the power of the executive to control appropriations."

Sen. Sparkman read into the record a tabulation contending that the administration was withholding $200 million out of $1.3 billion appropriated by Congress for urban renewal; $732 million out of $1.1 billion appropriated for Model Cities; $200 million out of a $350 million appropriation for water and sewer projects; $192 million out of $320 million for public housing; and $200 million out of $600 million appropriated for mass transit. He said the withheld funds total $1.524 billion.

In addition, he said, the President was declining to seek appropriations for some $244 million in additional urban programs authorized by Congress but not yet funded.

In other congressional activity, the Senate Judiciary Committee approved unanimously today a proposed constitutional amendment to give 18-year-olds the right to vote in all elections. The House Judiciary Committee approved an identical proposal Tuesday, 33 to 2. The overwhelming committee votes virtually assured congressional action this year to submit an amendment to the states for ratification.

Nixon Averts Rail Walkout

WASHINGTON, March 4 (UPI).—President Nixon today ordered a 60-day delay of a strike scheduled by railway signalmen for tomorrow.

Mr. Nixon delayed a walkout by the Brotherhood of Railway Signalmen by appointing a special board to look into their dispute and report back to him within 30 days, with an additional 30 days allowed for further negotiations. The signalmen are asking for pay increases totaling 54 percent over three years.

Another rail union—the United Transportation Union, which represents 150,000 train crewmen—agreed to continue contract negotiations.

Gallup Poll

Nixon's Popularity at Low; 51% Approve of Policies

By George Gallup

Director, American Institute of Public Opinion

PRINCETON, N.J., March 4.—President Nixon's popularity rating has slipped to 51 percent approval—his low point to date. This finding was recorded in the latest survey, conducted Feb. 19-21. His previous rating was 56 percent approval, recorded on Jan. 9-10.

One factor in the decline may be the invasion of Laos on Feb. 8. As previously reported, the weight of sentiment among Americans is that this action will lengthen rather than shorten the Vietnam war.

President Nixon's highest approval rating to date, 68 percent, was recorded in a survey conducted following his nationwide televised speech in November, 1969, in which he spelled out his program for Vietnamization of the war.

The President's average popularity rating, based on 35 national surveys conducted during his two years in office, is 59 percent approval.

The following question has been asked during the last three decades to measure the popularity of the incumbent President:

Do you approve or disapprove of the way [Mr. Nixon] is handling his job as President?

The following table compares the latest results with those recorded in early January:

	Approve %	Disapprove %	No Opin. %
Latest (Feb. 19-21)	51	36	13
(Feb. 8: Laos invasion starts)			
Jan. 9-10	56	33	11

The President has lost ground since January in all major population groups and in all four major regions of the country. His current approval ratings, by region, are: East—50 percent; Midwest—50 percent; South—55 percent; Far West—47 percent.

For the survey reported today, 1,443 adults were interviewed in person in more than 300 localities.

Of survey respondents who express approval of the President's performance, only about one in four says he "strongly approves."

Ratings of the President have become increasingly negative over the last year and a half, both in terms of his overall popularity and in terms of intensity of feeling.

This is revealed in the results of a second survey question, designed to measure intensity of feeling:

How strongly do you approve (or disapprove)—very strongly or not so strongly?

The following table compares the latest results with those reported in September, 1969, when the question on intensity was last asked:

	Sept. '69 Approval	Latest Approval
	61%	51%
Strong approval	23	14
Mild approval	38	37
No opinion	18	13
Mild disapproval	13	29
Strong disapproval	8	16
	100%	100%

Medina Was Told Not to Hurt Civilians, Calley Trial Hears

FORT BENNING, Ga., March 4 (AP).—Capt. Ernest Medina was ordered during the My Lai assault not to harm civilians or indiscriminately burn the village, a witness at the U. S. Army court-martial of Lt. William L. Calley jr. testified today.

The witness, Maj. Charles C. Calhoun, said the order was given by his brigade superiors when they became suspicious of goings-on in the hamlet where the government claims Lt. Calley already had directed the slaughter of at least 102 unresisting Vietnamese men, women and children.

Maj. Calhoun also testified that Capt. Medina later was ordered back into My Lai to check on civilian casualties but that directive was countermanded by the highest ranking officer in the area and never carried out.

Maj. Calhoun, 39, was operations officer of the My Lai task force commanded by Col. Frank Barker.

Testifying for the government at the trial of Lt. Calley, 27, on charges of premeditated murder at My Lai, Maj. Calhoun said that he was in a helicopter above the hamlet about noon.

"When I went on the overflight, it got a call from Col. Barker, who called Capt. Medina to make sure his troops weren't hurting any civilians or doing any unnecessary burning. I relayed this to Capt. Medina," Maj. Calhoun continued.

Q. What did Capt. Medina say?

A. He rogered (acknowledged).

Lt. Calley had testified that he directed the extermination of civilians at My Lai on orders of Capt. Medina, and that the latter never remonstrated with him over the treatment of the villagers.

Capt. Medina has been charged with overall responsibility for the killings at My Lai, but an Army board has not announced its decision on whether he must stand trial.

Girl Gets Jump On the U.S. Army

ANCHORAGE, Alaska, March 4 (AP).—A 22-year-old girl has beaten the U.S. Army to the punch in parachuting to the Polar ice cap in the Beaufort Sea.

The Army planned to drop 130 specialized Arctic Rangers to the ice for a practice rescue mission yesterday, but postponed the trial because of inclement weather.

That didn't seem to bother Britain Carroll, an Alaska jumping champion. She parachuted to the ice cap in 30 below zero weather on Tuesday and left a sign welcoming the Rangers.

Miss Carroll said last night that she jumped to qualify for an expert's license—and to beat the Army to it.

Chotiner Quits Nixon's Staff

WASHINGTON, March 4 (UPI).—President Nixon today accepted with a "very special and deeply personal sense of regret" the resignation of his long-time political adviser Murray M. Chotiner from the White House staff.

The White House said Mr. Chotiner resigned, effective Saturday, to join a private law firm in Washington.

Mr. Chotiner has been Mr. Nixon's chief political operative since 1952. There have been reports that he may become closely involved in Mr. Nixon's 1972 re-election campaign, working outside the White House.

In an exchange of letters, Mr. Chotiner told Mr. Nixon that he would consider it "a privilege to be of assistance to you in your future endeavors."

Soviet Science Honors Seaborg of the AEC

MOSCOW, March 4 (AP).—Glenn T. Seaborg, chairman of the U. S. Atomic Energy Commission, has been named to membership in the Soviet Academy of Sciences, an honorary post.

Among 14 other foreigners admitted to the academy this year were Abdus Salam, a Pakistani nuclear physicist working in England, and Martin Ryle, director of England's Mullardorf Radio Astronomy Observatory.

"The Best In The House" in 87 lands

Texan Invokes New Rules

House Casts First Recorded Teller Vote

By Marjorie Hunter

WASHINGTON, March 4 (NYT).—"Mr. Chairman, I demand tellers with clerks."

There were loud cheers and a few playful catcalls from the floor yesterday as Rep. Wright Patman, D., Texas, set in motion the machinery for the first recorded teller vote in House history.

It marked the end of an era in which the votes of House members on key issues—such as crucial amendments—were shrouded in secrecy.

Until yesterday, the votes of members during the amendment stage of a bill were never recorded. Using what was called the "teller system," members merely walked up a center aisle to be counted for or against an amendment, but were never recorded.

Unrecorded Amendments

In this way, members who might later assert—truthfully enough—that they had voted on roll-call for passage of a bill, could, first shape the measure to their liking by amending it on nonrecorded votes.

A key part of the legislative reform package adopted by Congress late last year, the new system of "tellers with clerks" provides a public record of how each member voted during the amendment stage.

Until electronic voting machines are installed in the House—possibly later this year—a makeshift procedure has been devised to record teller votes.

Anxious to take part in the first trial, House members thronged to the floor yesterday in record numbers. Dutifully, they picked up red cards (for no) and green cards (for aye) from a table in the well of the House.

Tellers Appointed

As members filled out the cards with their names, states and districts, Rep. William H. Natcher, D., Ky., presiding over the session, appointed the tellers: Mr. Patman and Rep. John W. Brynes, R., Wis., to count the "ayes"; Rep. Henry S. Reuss, D., Wis., and Rep. John C. Watts, D., Ky., to count the "noes."

Then, sounding like a caller at a square dance, Mr. Natcher bellowed: "Tellers and clerks will take their places."

The "aye" tellers and a clerk with a wooden ballot box moved to the back of one aisle; the "no" tellers and a clerk with another ballot box moved to another side.

Then, members swarmed through the House, trying to decide which aisle to approach as they clutched their red and green cards.

Within 12 minutes—the time settled under the new system—391 members had passed by the tellers to be counted, while clerks had deposited the red and green cards in the ballot boxes.

Prompt Announcement

As under the old system, the division vote was announced promptly: 189 for, 211 against. The Patman amendment to delete an interest-rate section of the debt-ceiling bill had failed.

Later, clerks would count the ballots and a public record of how each member voted would be printed during the night in the Congressional Record.

The size of yesterday's first recorded teller vote astounded even leaders of the 435-member House.

In the past, the turnout for a teller vote ranged anywhere from 90 to 200, meaning that important issues often were determined by less than a fourth of the entire House.

Muskie Gets Disarmament Panel Chair

By John W. Finney

WASHINGTON, March 4 (NYT).—Sen. Edmund S. Muskie, who has been seeking a prominent foreign policy forum in his bid for the presidency, was unexpectedly elevated yesterday to be chairmanship of the Senate disarmament subcommittee.

The appointment of the Maine Democrat as chairman of the panel, the Foreign Relations Committee's subcommittee on arms control and international law and organizations, was announced by Sen. William Fulbright, D., Ark., chairman of the full committee.

Sen. Muskie was named to the Foreign Relations Committee only this year. When none of the more senior Democrats on the committee expressed an interest in the subcommittee chairmanship, Sen. Fulbright quietly arranged to appoint Sen. Muskie to the post.

Sen. Muskie will be in a position to oversee the administration's position on the Strategic Arms Limitation Talks with the Soviet Union. To that extent he will have a political counter to a potential rival for the Democratic nomination—Sen. Henry M. Jackson of Washington, chairman of a special Armed Services subcommittee on SALT.

The subcommittee also has been used in the past by its former chairman, Albert Gore of Tennessee, as the focal point of Senate opposition to the administration's deployment of the Safeguard anti-ballistic missile system. While associated with the ABM opposition and the advocates of a strategic arms agreement with the Soviet Union, Sen. Muskie has not been in the forefront on the disarmament issue.

In one of his few speeches on the issue, he criticized the administration last April for its "massive ambiguity" on the SALT talks and urged that the United States propose a six-month freeze on the deployment of offensive and defensive weapons to enhance the chances of the negotiations with the Soviet Union.

Sen. Muskie, who thus far has been identified principally with domestic issues, such as the fight against pollution, has obviously an intent on developing his ability in foreign policy as he makes his unannounced bid for the Democratic presidential nomination.

Tomorrow Sen. Muskie will be on his first trip to Africa to attend "The African-American Dialogue"—a meeting sponsored by the Afro-American Institute—in Lagos, Nigeria.

Case of the British Robbers Who Accepted a £250 Check

WINCHESTER, England, March 4 (Reuters).—Two robbers who raided a local cottage agreed to take a check from the owner after they could not find any cash, a court heard here today.

To insure that the householder, Arthur Bellinger, did not raise an alarm, they took away his artificial leg and ripped out his telephone.

Mr. Bellinger told the court that Brian Keating, 35, and James Benjamin forced him to write out a check for £250 ($600) after they could not find any cash and warned that if he stopped payment, they would return and burn the cottage down.

The victim stopped payment and police traced the men through a fingerprint.

Their reward was jail sentences. Keating received five years and Benjamin, 30 months.

Six Los Angeles Policemen Indicted in Deaths of Two Mexicans

WASHINGTON, March 4 (AP).—Seven persons, including six California policemen, were indicted by a Los Angeles federal grand jury today in the fatal shooting of two Mexicans at a rally in Los Angeles last Aug. 29.

The indictments, announced here by Attorney General John N. Mitchell, and in Los Angeles by U.S. Attorney Robert Meyer, cover various civil rights violations and criminal charges.

Complaints Received

Mr. Mitchell said the U.S. Attorney's Office in Los Angeles had received complaints about the conduct of officers during the rally, which turned into a riot.

At the same time, he said the Justice Department had closed its inquiry into the deaths of Los Angeles newsman Ruben Salazar and Jerry Lee Amie, a Negro Vietnam war veteran, because no prosecutable civil rights violations were found in an FBI investigation.

Mr. Salazar was killed in the same incident as the Mexicans. Mr. Amie was shot dead June 20 by Los Angeles police.

U.S. Tuna Boat Fined $157,740 by Ecuador

SAN DIEGO, Calif., March 4 (UPI). — Ecuador seized the world's largest tuna boat yesterday for the second time this year and fined it $157,740, the largest amount ever imposed in the heated dispute with the United States over offshore fishing rights.

The 1,800-ton Apollo was taken into custody at dawn by the Ecuadorian gunboat Esmeralda. When the Apollo was first seized in January, its owners paid $92,000 in fines and for fishing licenses which were supposed to be valid until next Tuesday.

The fines are reimbursed by the U.S. government, which recognizes a 12-mile fishing limit. Ecuador claims a 200-mile limit.

Attempt to Implicate Manson Angers Tate Trial Defendant

LOS ANGELES, March 4 (AP).—Leslie Van Houten objected strenuously at the Sharon Tate murder trial as her lawyer obtained testimony from a psychiatrist that Charles Manson could have persuaded her to commit murder while she was under the influence of LSD.

"I was influenced by the war of Vietnam and TV. This is all such a big lie," she shouted at the hearing yesterday. The judge warned her to be quiet or be ejected.

Psychiatrist Keith Ditman, a pioneer in research on hallucinogenic drugs, said he had not examined Miss Van Houten but from what he knew of her case he believed a dominant personality such as Manson could have persuaded her to commit murder.

He said he believes she lives in an unreal world and she may have developed a psychosis from chronic use of LSD.

Liable for Damages

LOS ANGELES, March 4 (Reuters).—A federal judge has ruled that the five persons indicted for the Sharon Tate murders are liable for damages to the 11-year-old son of one of the victims.

Nathaniel Friedman, lawyer for Bartyk Frykowski, whose father, Voitek Frykowski, was murdered at the Tate mansion in August, 1969, said today that Judge Jesse Curtis ruled on Feb. 9 that the matter should go before a jury.

"All that remains now is for the jury to determine the amount of the damages," Mr. Friedman said.

Young Frykowski has sued Charles Manson, 36, Susan Atkins, 22, Patricia Krenwinkel, 23, Charles (Tex) Watson, 24, and Linda Kasabian, 21, for $2 million in damages for his father's death.

Judge Curtis granted a motion declaring the defendants liable on Oct. 9 but withdrew it a few days later because three of the defendants were then on trial for murder.

Manson, Miss Krenwinkel and Miss Atkins have since been convicted of the murders.

Manson Shaves His Head Bald; He's the 'Devil'

LOS ANGELES, March 4 (Reuters).—Hippie Charles Manson, 36, main accused in the Sharon Tate murder trial, today appeared in court with a completely shaved head.

Asked through his lawyer why he had shaved his head, Manson sent back three reasons in writing.

They were: "I cut it because I'm the devil and the devil always has a bald head. I don't get any sunshine or fresh air in jail and my hair became bad. I cut it because it's on my head."

The jury is deciding whether Manson and his three girl followers should get the death sentence or life imprisonment.

S. Africa Executions

CAPE TOWN, South Africa, March 4 (Reuters).—South African Justice Minister Petrus Pelser announced that 81 persons were executed in the country last year. Since 1944, South Africa has been responsible for over half the known legal executions in the world.

French Police Closing In on Racket Involving Racetrack Employees

PARIS, March 4 (AP).—French gaming and national police are winding up an investigation of a racetrack racket in which employees of the pari-mutuel betting system made several millions of francs in post-race bets.

Some 50 employees of small tracks are to be charged in connection with the operation, and racecourse authorities will be represented in proceedings in an effort to recover some of the winnings for the pari-mutuel system, the newspaper Le Figaro said today.

No one was named in press reports, but there was speculation that the police were seeking a "Mr. X," the supposed brains of the operation.

The fraud was carried out over the past 18 months. Pari-mutuel employees misused punching machines designed to validate betting tickets, to enable them to "sell" themselves winning tickets after a race. Their "bets" were made only on medium-odds winners and in small sums, to avoid suspicion.

Because of the "closed circuit" movement of money between bettors and the betting and paying windows, the fraud could not be detected outright. Loose talk by those involved put track officials and then the police on the trail, the newspaper said. Some employees were fired in early December after being caught in the act, the newspaper France Soir reported.

Reagan Would Reform Welfare, Put the Able-Bodied to Work

LOS ANGELES, March 4 (UPI).—Gov. Ronald Reagan proposed yesterday a sweeping reform of California's welfare system designed to remove the "unneedy" from relief rolls and save taxpayers $575 million a year.

The program called for putting able-bodied welfare recipients to work on public assistance jobs, cutting medical benefits and closing "legal loopholes."

Gov. Reagan declared this is "perhaps our last chance" to bring under control a welfare and health care system which is costing taxpayers nearly $3.5 billion annually in federal, state and county funds.

Welfare experts estimated that between 25 and 35 percent of the 1.6 million persons receiving aid to families with dependent children would find their grants reduced under Gov. Reagan's program.

One of the most controversial features of the program was certain to be the work requirement for able-bodied recipients. Gov. Reagan said these recipients would receive "the same benefits they are getting now, but will work in return."

14 Die in Tokyo Train

TOKYO, March 4 (Reuters).—Fourteen people were killed and more than 70 injured when a commuter train overturned near here today, police said.

Play Market or Horses?

N.Y. Stock Exchange at Odds With Off-Track Bet Firm

By Philip Greer

NEW YORK, March 4 (WP).—The New York Stock Exchange says the city's new Off-Track Betting Corp. is hurting the Big Board's image.

The debut of OTB, which will begin by accepting bets on local races but anticipates expanding to other tracks and into additional gambling fields, has been delayed by a series of labor disputes at the tracks. It now plans to begin operating on March 29, with five offices, and expand rapidly to about 90 by the end of this year. Howard Samuels, the head of OTB, said that an intensive advertising program will be launched on March 15.

The flap with the exchange arose yesterday over one of the slogans to be used in the campaign. It reads "If you're in the stock market you might find this a better bet" and will be used, according to an OTB spokesman, on subway placards, billboards and in other print advertising.

A picture of the placard appeared in newspapers here this morning and prompted Bernard J. Lasker, NYSE chairman, to fire off a heated telegram to Mr. Samuels. "On behalf of more than 31 million shareowners who own stock in America's publicly-owned corporations, the NYSE strenuously protests the ill-considered slogan of your Off-Track Betting Corp. which infers an analogy between OTB and investment in stocks," the telegram said.

"Except that both involve a decision on the use of disposable income, I cannot see any basis for telling the public your facilities are an alternative to investment," it continued.

After listing four recommended criteria for investing—investigation, use of excess capital, moderation and securing good advice—the telegram said "while we understand New York's need for additional revenue and sympathize with your desire to stimulate patronage of legalized off-track betting shops, we request that you refrain from using [illegible] that try to do so at the expense of the securities business.

"Incidentally," it concluded, "it may interest you to know that New York's income from stock transfer tax on stocks, income that you seek to diminish significantly means of your advertisement netted New York City $183 million last year."

An OTB spokesman said that the telegram, released to the press yesterday afternoon, had not been received by his office.

Adm. Crommelin Hero of War in Pacific, Is Dead

MONTGOMERY, Ala., March 4 (AP).—Vice Adm. Henry Crommelin, 66, a much-decorated hero of World War II, died Tuesday at his home in Elmore County.

During World War II, Adm. Crommelin's command included the destroyer Guest in the Pacific battle zone. He received the Silver Star for his "conspicuous gallantry and intrepidity" during the assault of Biliru Island, Tarawa and the Gilbert Islands and received seven other medals and awards.

Later, he was chief of staff and aide to the commander of destroyers in the Atlantic Fleet and then was assigned to the naval base at Guatanamo Bay, Cuba.

Adm. Crommelin was subsequently named a member of the joint staff of the Pacific Fleet and then became assistant chief of naval operations in Washington. He retired in 1959.

Gen. Sergei S. Varentsov

MOSCOW, March 4 (AP).—Gen. Sergei S. Varentsov, 70, who was demoted and disgraced for implication in the Penkovsky affair in 1963, has died.

Krasnaya Zvezda (Red Star), the newspaper of the Soviet Defense Ministry, carried a brief obituary today on the last page. It did not say when Gen. Varentsov died.

Gen. Varentsov was chief marshal of Soviet artillery in October, 1962, when Col. Oleg V. Penkovsky, of the State Committee for Coordination of Scientific Research, was arrested and accused of passing secrets to U.S. and British intelligence services. In June, 1963, Gen. Varentsov was expelled from the Central Committee "for having relaxed his political vigilance and committed unworthy acts."

William H. S. Dabney

GENEVA, March 4 (Reuters).—William H. S. Dabney, 64, under secretary-general of the League of Red Cross Societies, died yesterday in Geneva after a short illness, the league announced today.

Born and educated in Boston, Mr. Dabney was appointed league under secretary-general in 1968 after many years with the American National Red Cross and public service in Massachusetts.

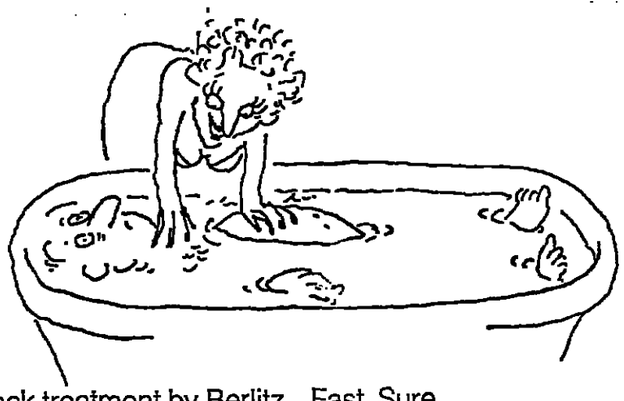

Rockwell Kent Is Ill

PLATTSBURGH, N.Y., March 4 (AP).—Rockwell Kent, 89, artist, poet, architect and explorer, was under intensive care at a medical center today.

Americans Who Argue For a Time to Die

By Judy Klemesrud

NEW YORK (NYT).—Mrs George C. Barclay is a silver-haired, 67-year-old Manhattan housewife who wants to die with dignity. So she recently signed the Euthanasia Educational Fund's "living will," in which she requested that, if she becomes ill and there is no reasonable expectation for her recovery, she be allowed to die and not be kept alive by "artificial means" or "heroic measures."

Her husband, a retired banker, and their three children know of the will, and have told Mrs. Barclay they agree with her decision and will try to see that it is carried out.

Mrs. Sydney Appel, 54, is a Brooklyn housewife who also signed the document. But her four children are vehemently opposed to the will, because they don't believe such a death could be handled in "a responsible manner."

"What about the woman whose children felt she was an inconvenience?" asked Mrs. Appel's son, Douglas, 17. "If she had already signed the will, it would be no great difficulty for the children to do away with her."

To the people who are active in this country's two major euthanasia groups (the Euthanasia Educational Fund and the Euthanasia Society of America), euthanasia generally means one thing: The right to die with dignity. Indignity, to them, means deterioration, dependence and hopeless pain. But to many other people, euthanasia (derived from the Greek for "good death") means "mercy killing."

Proponents of euthanasia predict that family discussions such as those that occurred in the Barclay and Appel families are going to become quite common in the next few years as the subject of death, and whether the patient has the right to decide how and when he wants to die, is brought out into the open.

There are indications that this is on the verge of happening now. A "right to die with dignity" bill was recently introduced in the Florida legislature, stating that a patient suffering from an incurable, fatal and severely painful illness should have the right to ask that his life be painlessly terminated. The bill is now in committee.

Courses on death have been filled to capacity this year at both New York University and Union Theological Seminary. The technical advances in the medical arts (new life-sustaining drugs, organ transplants, artificial kidneys, auxiliary hearts, defibrillators, pacemakers and respirators) have resulted in dialogues among young medical students, who do not always agree with these artifical means of keeping dying patients alive.

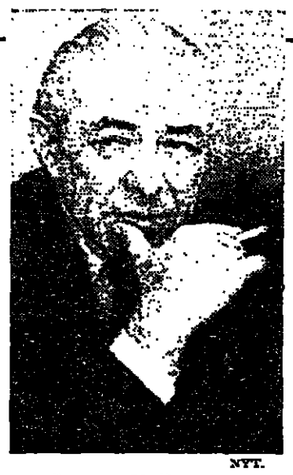

And the recent liberalization of abortion laws in several states has added fuel to the arguments of those who believe that people should have the right to make their own decisions regarding life and death.

"All of my friends like to talk about death nowadays," said Mrs. Henry J. Mali, 67, of Manhattan, president of the Euthanasia Educational Fund. "It's even a subject of conversation at cocktail parties. People seem charmed to find somebody else who wants to talk about it."

Almost 20,000 persons have requested the "living wills" in the 18 months that they have been available, according to Mrs. Elizabeth T. Halsey, executive secretary of the Euthanasia Educational Fund. She said that she received 50 requests a day for the wills, which are not legally binding, and had recently ordered 10,000 more.

How does one die with dignity? One of the lines in the "living will" says: "I ask that drugs be mercifully administered to me for terminal suffering even if they hasten the moment of death."

At present, doctors who carried

NYT.

Jerome Nathanson
...defining the question.

out this wish could legally be charged with murder. This is perhaps the major reason why people consider euthanasia abhorrent—or because it is often used interchangeably with the term, "mercy killing," which in turn is usually associated with the killing of babies who are born with mental or physical defects. (To many others, euthanasia is equated with Hitler's program of killing mentally and physically handicapped persons.)

"It's a common misunderstanding that we advocate mercy killing," said Jerome Nathanson, chairman of the board of leaders of the New York Society for Ethical Culture, and a strong proponent of euthanasia. "But actually, mercy killing is the complete antithesis of what we seek.

"The question is not one of killing people," he added. "It's the question of letting one die."

Mr. Nathanson, whose wife died of cancer in 1968, said he believed that the new honesty and openness among American youth might help change public attitudes about euthanasia.

"Sexual relations are one's private affair," he said, "and one's attitudes on death should be a private affair."

Mr. Nathanson said he knew of a doctor who, if a patient is suffering from a terminal illness, leaves three pills on the bedside table and tells the patient, "Take one every four hours. If you take them all at once, they will kill you."

"I don't know why all doctors can't be that way," he said, "and leave the decision up to the patient."

Many doctors make a distinction between "active euthanasia," where a drug or other treatment is administered to hasten death, and "passive euthanasia," in which therapy is withheld and death is hastened by omission of treatment.

Most religious groups condemn active euthanasia, especially the Roman Catholic Church. Last October, Pope Paul VI said in a statement to Roman Catholic physicians that euthanasia, without the patient's consent, was murder; and with his consent, suicide. "What is morally a crime cannot, under any pretext, become legal," he added.

But the Pope also seemed to espouse the religious community's more lenient attitude towards passive euthanasia when he said that while doctors have the duty to fight against death with all the resources of science, they are not obliged to use all the survival techniques developed by science. Prolonging life in the terminal stage of incurable disease could be "useless torture," he said.

A statement by Pope Pius XII is included in the literature distributed by the Euthanasia Educational Fund. It says: "The removal of pain and consciousness by means of drugs when medical reasons suggest it, is permitted by religion and morality to both doctor and patient; even if the use of drugs will shorten life."

Two Groups

The Euthanasia Educational Fund is a nonprofit, educational organization that finances studies and seminars on euthanasia for physicians, clergymen, social workers, nurses and lawyers. Contributions to the fund are tax deductible, while contributions to the Euthanasia Society of America, an action organization seeking political change, are not. Both groups have offices in the same room on West 57th Street and claim 1,200 joint members. Last year, the membership was 600.

NYT.

Mrs. George C. Barclay
...not mercy killing.

The Rev. Donald W. McKinney, pastor of the First Unitarian Church of Brooklyn and a vice-president of the Euthanasia Educational Fund, said he believed that the fact that the "living will" was not legally binding was "rather irrelevant."

"Its great value," he said, "is that a tremendous burden of guilt is lifted from the family and children when a person signs the will. And it is also a great deal of help to doctors."

He said that more and more clergymen had to wrestle with the moral question posed by euthanasia: Whether it can be reconciled with the commandment, "Thou shalt not kill."

"The primary commandment is reverence for life," he said. "It is not a question of killing, but a question of honoring life, a question of dignity.

"The process of dying is changing today," he went on. "With all the new medical advances we have, we have to determine if life is really being served by prolonging the act of dying."

Definitions

The fact that there is no clear definition of death that is acceptable to everyone is one reason why many doctors are opposed to euthanasia. Some doctors consider death to occur when the brain dies; others, when the heart stops functioning. Sidney D. Rosoff, legal adviser for both euthanasia groups, said: "A patient is dead when a doctor says he is." But even this definition has not always held up in court cases.

"I tend to be basically moved toward it [euthanasia]," said Dr. Barry Wood, a Manhattan internist who is also an ordained Episcopal priest. "but I become more conservative as I see the possibilities. One possibility is to declare certain people unfit—and this has happened in the past."

Dr. Fred Rosner, director of hematology at the Queens Hospital Center and a leading critic of euthanasia, said: "If euthanasia were legalized, the next logical step would be the legalization of genocide and the killing of social misfits.

"And who can make the fine distinction between prolonging life and prolonging the act of dying?" he added.

Other opponents of euthanasia frequently argue that a dying patient should be kept alive as long as possible because a cure for his illness could be just around the corner.

"There is a paucity of overnight miracles," Mr. Nathanson rebutted. "Physicians generally know what's going on in the field.

"And what if a person can't stand the pain for five years? If I say, 'I can't stand it,' and the doctor says, 'Look, your suffering may help other people,' that's the worst ethical indignity that can be done to a person."

NYT.

Mrs. Sydney Appel
...got to talk about it.

The Hippocratic oath that all U.S. physicians take when they graduate from medical school is used as an argument by both proponents and opponents of euthanasia. The oath states that it is a physician's duty to relieve suffering, but it also says he must preserve and protect life.

In Britain

In Great Britain, which has an active Euthanasia Society, there have been two recent controversial proposals by doctors that an age limit should be set at which doctors should stop "resuscitating the dying." Dr. Kenneth A. O. Vickery suggested the age of 80; another said that anyone over 65 should not be resuscitated if his heart stopped.

Dr. Vickery, who said he thought geriatric patients were overloading hospital and welfare services in Britain, recalled the frequently quoted lines of Arthur Hugh Clough, the 19th-century English poet, who wrote:

Thou shalt not kill; but need'st not strive
Officiously to keep alive.

This country's two euthanasia groups are opposed to age limits. "The people in Britain are thinking of society," the Rev. McKinney said, "we're thinking of the individual. We believe that even people in their twenties and thirties should have euthanasia, if they need it."

Mrs. Appel, whose children are opposed to her desire for euthanasia, said she came to her decision after watching her senile, 87-year-old mother die a painful death after suffering a broken hip.

"I made up my mind I didn't want my children to see me that way," the dark-haired woman said, "I don't want to leave them with the mental image of deterioration."

Mrs. Appel's son's argument that families might let a patient die for ulterior motives is another frequently used argument against euthanasia. Some family members, the opponents reason, may wish to relieve their own suffering rather than the patient's; or else the heirs may have their eyes on the patient's estate.

Most people who have signed the "living will" have chosen doctors who are sympathetic to their wishes. Mrs. Barclay said she picked her doctor because she knew he was a contributor to the Euthanasia Society of America. Mrs. Mali, who is the wife of a retired textile executive, said her physician was a man who had promised he would let her die "peaceably, rather than having my arms stuck full of tubes."

"Now that I'm old, the next celebration is death," Mrs. Mali said in her East Side town house. "And what I'm most interested in is how my death can be made an honorable estate, like matrimony."

DRAMA

MacLeish Retells 'Devil and Daniel Webster'

By George Gent

NEW YORK, March 4 (NYT).—The elderly white-haired man, looking more like a retired banker or State Department official than a three-time Pulitzer prize-winner, was holding up remarkably well under the hot lights of his third television interview as he leaned forward to catch the reporter's question.

"Can you summarize what your new play is about, Mr. MacLeish?" the young man asked.

"Not in one sentence, I can't," the poet replied amiably. Archibald MacLeish then recounted the theme of his new play, "Scratch," which is based on the memorable short story by Stephen Vincent Benet, "The Devil and Daniel Webster." (The story has been dramatized before. Benet himself wrote the book for a musical version, staged in 1939. A movie, "All That Money Can Buy," starring Walter Huston as Scratch, was made in 1941, again with Benet collaborating on the script).

The 78-year-old poet and playwright spoke in the large rehearsal hall of the American Theater Laboratory here, filled with actors and news photographers, where the 20-member cast of "Scratch" had assembled for the play's first rehearsal.

"Scratch" is scheduled to open in Boston on April 7 and at New York's St. James Theater on May 6. The play is being produced by Stuart Ostrow, directed by Peter Hunt, and stars Patrick Magee, Will Geer, William Redfield and Roy Poole.

Earlier, Mr. MacLeish, who will turn 79 the day after his play opens in New York, said he was delighted to see the faces of his creations, particularly those of Daniel Webster (Magee) and Scratch (Geer).

"If you only knew how I've thought about what you two might look like," he said, smiling. "You're even better than I imagined. I like this play enormously. It means a great deal to me personally. I think I owe it to myself to tell you that. I've only had three plays on Broadway. You may remember 'J.B.,' but my first play was 'Panic,' in the thirties (1935). It was Orson Welles's first vehicle and it was worthy of him. It ran for two performances."

In discussing the play's theme Mr. MacLeish related how he had altered Benet's classic story about a New England farmer who sells his soul to Scratch (the devil) for seven years of prosperity and then is defended by Daniel Webster before a jury of the damned.

"It's a beautiful, beautiful story," Mr. MacLeish said. Then, referring to the late Mr. Benet, he added: "But with his usual prescience, that young man chose the wrong hero. It was really Daniel Webster who sold his soul to the devil. In my play, the two main characters are Webster and Scratch. They are the two poles around which the play revolves. The devil only uses the farmer [Redfield] so he can put Webster on trial."

Mr. MacLeish explained that the play's action falls within a single day in July, 1850. On the previous March 7, he said, Webster had risen in the Senate to support a compromise policy that saved the Union from dissolution for another ten years.

The price he paid was to agree to the continued enforcement of the Fugitive Slave Law, a betrayal of his known anti-slavery views.

"I think you can say that my play is about morality and politics," Mr. MacLeish declared. "I believe that underneath all political questions there are moral issues. Webster is my victim-hero. He was the most American of Americans—optimistic, expansive, successful as a lawyer, statesman, orator. He has all the force and optimism of a new people. But Scratch is the other side of Webster—he's the least American of figures—negative, skeptical, the thing most Americans of Webster's time thought they had left behind in tired, nasty old Europe.

"Americans didn't believe in a real devil, but I think many do now—they only have to look at the Manson case. I don't agree with those who say that morality has nothing to do with politics. I think this play has something to say about that."

FILMS

'Butch Cassidy' Wins British Awards

LONDON, March 4 (Reuters).—The American film "Butch Cassidy and the Sundance Kid" made a virtual sweep of the 1970 British film awards tonight, winning nine prizes—although Paul Newman, one of the stars, did not even get a mention.

The annual awards are presented by the Society of Film and Television Arts—comprising about 650 of the industry's leading technicians from director down. The awards were presented by Princess Anne, whose great-uncle, Earl Mountbatten of Burma, is the society's president.

Newman's co-star, Robert Redford, was named best actor, but his performance was linked with that in two other films—"Tell Them Willie Boy Is Here" and "Down Hill Racer."

Katherine Ross, the film's leading lady, was named best actress, linked with her performance with Redford in "Tell Them Willie Boy Is Here."

Other Awards

Other awards picked up by the film included: the best film; the best direction (George Roy Hill); best screen play (William Goldman); best cinematography (Conrad Hall); best film editing (John C. Howard and Richard C. Meyer); best sound track (Don Hall, David Dockendorf and William Edmundson).

David Bradley, 17, was named the most promising newcomer for his role in "Kes."

Burt Bacharach won a special award, named after the late British film director Anthony Asquith, for the best film music, "Rain Drops are Falling on My Head" in "Butch Cassidy."

The best supporting actor and the best supporting actress were British—Colin Welland in "Kes" and Susannah York in "They Shoot Horses, Don't They?"

The most promising newcomer award went to David Bradley, a 17-year-old who made his debut in "Kes"—a low-budget film about a young boy who catches and tames a hawk. "Kes" had to fight to get a big showing in Britain.

The multi-million-dollar epic "Waterloo" got two awards: best art direction (Mario Garbuglia) and the best costume design (Maria de Matteis).

The United Nations award went to another Hollywood film, "M*A*S*H."

Little Change In '71 Michelin Guide to France

PARIS, March 4.—Except for a few predictable promotions to two-star rating, the 1971 Michelin Guide to French restaurants and hotels, on the newsstands March 10, differs little from the 1970 edition.

In the top three-star category, no changes were made. There are still 12 restaurants, four in Paris and eight elsewhere, that merit the rating. In the two-star category, there are still 66 restaurants, but five newcomers have replaced five which lost stars. The new two-stars include Le Vivarois in Paris and Le Pot-au-Feu in suburban Asnières, both of them highly rated in other guidebooks. Other new two-stars are: La Poste, Magescq, La Chaumière, Rheims, and Darroze, Villeneuve-de-Marsan.

Thirty-three restaurants were stripped of their single star and 29 have entered this category to make a total of 556 one-star restaurants in France.

Overseas Women's Clubs to Meet in Paris

PARIS, March 4.—The 20th biennial conference of the Federation of American Women's Clubs Overseas opens Sunday at the Inter-Continental Hotel, Paris.

Some 120 delegates and observers from 12 affiliated clubs in ten countries, including France, England, Italy, Switzerland, West Germany, Spain, Belgium, the Netherlands, Denmark and Norway, will attend business sessions, workshops and social events through March 12.

FAWCO, founded in 1932, has 14 affiliated clubs in 12 countries. Australia and Barbados will not be represented at the Paris meeting.

The first general meeting will be on Monday, with Mrs. Charles Minchère of Paris, FAWCO president, presiding. Among speakers addressing the group is Claude Sarraute, a reporter for Le Monde, luncheon speaker on Monday: David A. Betts, chief of the U.S. passport and special consular services in Paris, and John T. Cusack, regional director in Paris of the U.S. Bureau of Narcotics and Dangerous Drugs, will both speak at the Wednesday morning general meeting.

Social events include a reception at the Quai d'Orsay by Mrs. Maurice Schumann, wife of the French foreign minister, on Tuesday, and another reception on Thursday in honor of new officers at the residence of U.S. Ambassador Arthur K. Watson and Mrs. Watson.

Host clubs for the meetings are the American Women's Group in Paris and the Association of American Wives of Europeans. Heading the conference planning committee as honorary chairman is Mrs. Marcel de Gallaix of Paris, president of FAWCO from 1957 to 1959. Co-chairmen are Mrs. Ernest Castan (AAWE) and Mrs. Gérard Marlio (AWG).

REAL ESTATE & BUSINESS OPPORTUNITIES

COMMERCIAL REALTY

FOR SALE
IVRY-SUR-SEINE (FRANCE)
Industrial plot of about 3,650 square meters
having useful buildings including concierge accommodation and offices. Truck entrances on two streets and loading quays.
Immediately available.

Senator Ervin's Hearings

The hearings on invasion of privacy, begun last week, by the Senate judiciary subcommittee on constitutional rights afford a fine example of how useful a congressional investigating body can be in exposing and exploring a public problem. The subcommittee has not attempted to prosecute or pillory individuals: it has not pretended that it was a court or sought to punish by publicity people who could not be punished by due process of law. Under the chairmanship of Sen. Sam Ervin, the subcommittee seems to be observing the same high standards and the same concern for individual liberty it had in its early years under the late Tom Hennings.

Government snooping is an ancient evil. It is an evil compounded now by the development of mechanical memories—data banks, as they are called—which squirrel away and interrelate bits and pieces, globules and whispers of information, some of it accurate, some of it mistaken, ready to be resurrected, perhaps entirely out of context, at any moment in the future. The danger in this was summed up well enough in testimony before the subcommittee by Burt Neuborne for the American Civil Liberties Union: "The wedding of sophisticated information-gathering techniques with computerized information storage and dissemination systems has created, for the first time, a very real danger that the sense of privacy which has traditionally insulated Americans against the fear of state encroachment will be destroyed and be replaced, instead, by a pervasive sense of being watched. The emergence of such a police-state mentality could mean the destruction of our libertarian heritage."

The glimpses that have been allowed the public of some of the unchecked "raw files" amassed by the FBI and by the House Committee on Un-American Activities afford a warning of how much misleading trivia, how much venomous mendacity can be collected by indiscriminate encouragement of unverified allegations—not even subjected to denial or refutation by the accused. And even the kernels of truth in such dossiers may be deceptive when reviewed in an altered climate of opinion. Worst of all, perhaps, the mechanical memories deny the possibility of redemption—or of what is more human, forgetfulness and forgiveness. "It is clear," Sen. Ervin himself remarked in a recent speech about invasions of privacy, "that in our national quest for technological efficiency, we may have so hemmed our individual lives with yesterday's errors that we may yet foreclose the chance to start anew in our society." Most of us at one time or another have said or done things which we may legitimately hope will never be recalled.

Sen. Ervin sees the growing pervasiveness of government surveillance and intelligence-gathering, the growing compilation of dossiers made menacing by computerized recall, as invasions of privacy which may have two evil consequences. One of these consequences, as he sees it, is a threat to the development of human potentialities, a deprivation of "freedom to be an individual, to express his personality." The other is that "the free exchange in the market-place of ideas, so essential to our form of government, must certainly be limited when citizens know their demonstrations or their letters or expressions of complaint may make them objects 'of interest' to government." Sen. Ervin wants to counter these threats through a protection of privacy by law.

This is a wonderfully becoming and appropriate concern for a congressional investigating committee. How useful the committee on Un-American Activities could have been if instead of sniffing everywhere for subversion—as though the American people couldn't be counted on for loyalty to their own country—they had discerned and sought to expose the real threats to Americanism arising out of pressures for conformity and orthodoxy. The Senate subcommittee on constitutional rights is rendering a real service to the real sources of American security.

THE WASHINGTON POST.

Mr. Heath vs. the Unions

British trade unions, fighting the Heath government's industrial relations bill, seem determined to duplicate every futile step in the resistance program American labor waged nearly a quarter-century ago in its unsuccessful effort to block the Taft-Hartley Act.

The British unions are conducting mass demonstrations and one-day protest strikes, and they are threatening to boycott the process of the new labor law if it does pass. If American experience is any guide, these attempts to use economic power as a political club will merely reinforce popular belief that abuses of union strength need precisely the kind of curbs the legislation is designed to establish.

The union plan to refuse to register under the new law may prove as transitory as did similar moves to ignore Taft-Hartley requirements in the United States. In a memorable convention debate George Meany prevailed over John L. Lewis against the folly of a full-fledged boycott.

History has disproved most of the arguments American unions used in 1947 to buttress their charges that legislation intended to establish sounder ground rules for industrial relations added up to a "slave labor law." Today that part of the law which labor found most offensive—its provision for 80-day injunctions in national emergency disputes—is defended by most top unionists as preferable to compulsory arbitration or other strike preventives.

Prime Minister Heath's refusal to back away from his labor bill is matched by his hard line in the battle against inflationary pay increases.

Many British critics insist that Mr. Heath has carried firmness to the point of arbitrariness, that a less truculent government approach might have tempered union intransigence. But the memory of Harold Wilson's capitulation two years ago after his Labor government vainly sought union tolerance for its mild plan to restrain wildcat strikes rules out belief that any control program ever could win adoption on a cooperative basis.

Prime Minister Heath may yet demonstrate that the wage-price spiral can be checked if governmental resolution and public support are strong enough—a lesson that could prove as useful on the American side of the Atlantic as it would be in Britain.

THE NEW YORK TIMES.

International Opinion

Copters for South Africa

If the Wasps [British helicopters] are the thin edge of the wedge for arms supply and a developing naval alliance with South Africa, the final result could be the alienation of the African world—perhaps in large measure the developing world—from the West as a whole. It may be that the government does not care for the study group, or that they see its collapse as providing a safety-valve for feelings of frustration among the Africans which would otherwise be turned against the Commonwealth association itself. They should walk warily here. If the Africans and Asians withdraw from the group it will certainly be as a last warning to the British government not to go beyond the Wasps rather than a license to do so.

—From the Times (London).

The Logic of War

Since the best South Vietnamese troops have won no success and are likely to be increasingly decimated, it was logical for Washington to contemplate, as announced last week, an engagement of U.S. ground units, officially to rescue U.S. crews in difficulty. As a matter of fact, the Vietnamization experiment appears less and less conclusive as the battlefield spreads from South Vietnam to Laos, via Cambodia. The American leaders, who continue increasing their air support to the Saigon, Phnom Penh and Vientiane regimes, are not anywhere near admitting this. They keep asserting that the Indochinese armies are getting stronger every day and in a better position to assume the war burden. But the contradictions between reality and official statements are too obvious.

President Nixon has been dogged by ill-luck in Laos as in Cambodia. He cannot stop the unfolding of the military logic inscribed in the logic of his Indochina policy. To try to make his own conception of peace prevail, the United States is compelled, once more, to extend the war.

—From Le Monde (Paris).

Moment of Truth

By abetting Egypt's demands for political pressure against Israel, the Western powers do not reduce the prospect of war. They increase it, for Israel is not amenable to pressure or diktats. She is only amenable to peace and negotiations. This weekend, Egypt will discover that for herself. It will be her own moment of truth.

—From the Jewish Observer (London).

In the International Edition

Seventy-Five Years Ago

March 5, 1896

ROME—Signor Crispi and his colleagues have presented their resignation to King Humbert, who has asked them to retain their portofolios until parliament meets in two days. Meanwhile, how about Italy? Ministers come and go, but in going they often leave a legacy of trouble that those who come cannot remove. So it is with the Crispi Ministry. It has brought the country to a pass that threatens destruction financially, politically and morally.

Fifty Years Ago

March 5, 1921

WASHINGTON—Mr. Warren G. Harding yesterday became the 29th President of the United States of America. Standing at the Capitol entrance before a sea of humanity, President Harding, with upraised hand, repeated the oath administered by Chief Justice of the Supreme Court Edward D. Withe, and then kissed the same Bible which Washington had used in the first inaugural. The solemn hush of the thrones that blackened the streets turned to pandemonium when the ceremony was finished.

'Good Luck With the Mission, Private, and Remember . . . Army Undercover Intelligence Is Counting on You!'

Where the Laos Trail Leads

By C. L. Sulzberger

NEW YORK—Both sides know the Nixon plan for "Vietnamizing" the Indochina war depends on at least partial victory in the continuing Laos battle. Partial victory means destruction of sufficient Communist stockpiles along the southward channel of the Ho Chi Minh trail to prevent Hanoi from mounting another serious offensive for another year.

Normally speaking the monsoon season in that area starts in May. For the North to initiate an effective assault on South Vietnam and key regions of Cambodia requires advance storage of considerable materiel. This is far more difficult since Kompong Som (formerly called Sihanoukville) and the Delta have been pried from the Communist grip.

The present battle has long-range significance transcending any Indochinese engagement subsequent to Dien Bien Phu in 1954. For the first time since the United States became heavily committed there has been serious effort to maintain total military security so that the enemy will not have sufficient advance knowledge to counteract tactical intentions.

Even the usual cable traffic from Saigon to Washington was not duplicated to key U.S. embassies elsewhere to avoid inadvertent leakage. Things were expected to proceed slowly—and have done so. Announcements of substantial gains or losses may be withheld temporarily.

Will Grow More

Despite reports of the seriousness of this operation, the troops which may ultimately be committed by both sides are not yet completely in action. Hanoi has mustered some six units equivalent to divisions, with adequate corps commands, in the neighborhood of the Ho Chi Minh trail. They have by no means all been engaged. Saigon also has powerful reserves in the neighborhood.

Unlike the Cambodian operation, which displayed the maneuver capacity acquired by Saigon's new army, the southern Laos campaign is over exceedingly difficult mountain terrain where swift movement is impossible. But, allowing for due caution, it is foolish to be over-pessimistic at this stage because the famous Communist supply route has not been fully severed at its hinge and because casualties have been considerable.

From a military viewpoint Washington has taken the irrevocable decision that Saigon should henceforth be in a position to handle its own problems. This is what the somewhat fatuous word "Vietnamization" means. About two million South Vietnamese in various categories now carry arms. South Vietnam has more helicopters than any of our European allies in NATO. Saigon's army is the strongest in non-Communist Asia.

No Korea Replay

The test is whether this impressive organization is able to stand on its own feet. Vietnamization as such is irreversible and, should it fail to achieve victory, U.S. troop withdrawal will proceed anyway. That is why the present operation is so crucial.

The likelihood is that there will be no repetition in South Vietnam of the situation in South Korea where there are still numerous U.S. troops *sur place*. There was a peak of 542,000 Americans in South Vietnam during Nixon's first year. Almost all will probably be gone before July, 1972. Supporting Air Force units are almost certainly going to be based outside Indochina.

This may be a gamble but it is a logical gamble. Should there be miscalculation of the odds it would be an undue risk to leave perhaps 50,000 American soldiers as "hostages" in South Vietnam, tokens of blackmail offering Saigon an unreasonable chance to influence Washington's decisions.

As in any military operation, there is a nonmilitary purpose to the battle at the foot of the Ho Chi Minh trail. The political fallout in both Saigon and Washington is obvious. President Nguyen Van Thieu stands a far better chance of holding on to power if he succeeds in obliterating accumulated stocks at the outlet of Hanoi's supply pipeline.

And President Nixon will also stand a far better chance of being re-elected if, by the fourth quarter of 1972, he has managed to disengage American troops from a swamp without danger of an enemy offensive blocking their retreat.

If the current Laotian operation succeds it may at last prove possible to envision a diplomatic way out of the impasse. Right now the so-called Paris peace talks are only a propaganda exercise in which Hanoi seeks to influence U.S. opinion.

The moment Saigon is able to demonstrate that the war is no longer winnable, a real negotiation will become possible. This is the ultimate implication of Laos.

Letters

Venice's Horses

Re "The Fate of Four Horses," the Venice dispatch which appeared in the IHT of Feb. 24.

Today is Feb. 26, and the horses you say were replaced are still where they have been (except for a few years) since 1204. They will be taken down, yes, but if when copies are put up, they won't be the two-dimensional plywood figures you claim are already substituted.

Those figures, I believe, were used to test placement of hoist and techniques of lowering the originals. It may be that the originals can be sufficiently protected by restoration to allow them to return to the church's façade.

Also, you say their "bronze coats had been eroded by the salty Adriatic winds." The major deterioration, most agree, has occurred within the last 25 or so years, and they seem to have stood a lot of moving since the 3rd century B.C. and salt winds since 1204, so it would stand more to reason that the industrial fumes from the mainland are more the cause.

LESLIE D. BRUNING.
Venice.

Mr. Bruning is correct on all counts. The Herald Tribune's account was based on erroneous information supplied by the Associated Press with the photograph showing the hoisting of the wooden horses.

Volunteer Army

Sen. Kennedy, in dealing with the disadvantages of a volunteer army (Feb. 26), points out that such a force would be disproportionately made up of economically disadvantaged people. I share his concern that the "bonus for combat duty" system does damage to social justice. However, to say that such a drawback is inherent in a system of voluntarism is simply incorrect.

Instead of opposing a volunteer army, I would suggest that Sen. Kennedy support it; but in addition, he should simultaneously propose that a system of volunteer social service also be instituted. If such a system of volunteer social service had an equal pay scale to that of the military, then there would be no economic effect of forcing the poor into the military.

The need for social manpower can be seen particularly in the areas of environmental protection and housing; may I suggest that these social manpower needs outweigh our present military needs.

Of course, Sen. Kennedy could then argue that poor people would be, in effect, channeled into social service. However, this alternative is more desirable than either unemployment or being shot in Asia.

Sen. Kennedy's plan of a standardized lottery does absolutely nothing to remove the grossest unfairness about the draft: the fact that some Americans (roughly 33 percent of the eligible male population) must serve in the military, and the rest do not. What Sen. Kennedy proposes is to make the unfairness more equitable, such as a more equitable way to play Russian Roulette. But in the end the same number of people are shot, regardless of in which chambers the bullets are placed.

If Sen. Kennedy is really primarily concerned with social justice, then he should help devise a system which would create desirable alternatives for the poor and, at the same time, stop the unfairness of compulsory military service.

WILLIAM R. SHARP.

Medical Aid Abroad

I have had an elaborate exchange of views with the U.S. Department of Health, Education and Welfare and the Social Security Administration on the question of extending Medicare to Americans living abroad. I pass along the information gained, which may be of interest to some of your readers. The HEW Department is reluctant to certify the American Hospital in Paris for Medicaid patients. The main reason for opposing, at the present time, the extension of Medicaid to Americans living abroad, is the following: The Department is not sure that there are enough hospitals in France, West Germany, Switzerland, Austria and other parts of Europe which could be certified according to the rules and regulations pertaining to hospitals which are entitled in the U.S. to admit Medicaid patients.

Communication seems to be a major obstacle. I have suggested that medical attachés be appointed at the embassies in the various countries: A precedent in this direction has been created by appointing commercial attachés and agricultural attachés, who came from the various departments and not from the State Department. Economics is a very important consideration when extending Medicaid to foreign countries. The average day's stay in an American hospital will cost approximately $60 to $80. The same kind, probably a better, accommodation is available in Austria for $20 to $25. Naturally, it would be a great saving to the Social Security Administration to have Americans living abroad treated in local hospitals at the local rate.

The HEW Department and the State Department have been authorized by Congress to explore the feasibility of entering into reciprocal agreements with neighboring nations, designed to make Medicare benefits available to U.S. citizens who receive necessary hospital care in such nations. I have been informed that negotiations with Canada and Mexico have been carried on, but to no avail. But if HEW will issue a statement describing to what extent daily expenditures would be reimbursed by the U.S. government, I am convinced that a number of European governments would be very glad to welcome American citizens living abroad. In other words, it would require only a good portion of good will and there is no doubt that in many European countries Medicaid could be extended to Americans older than 65 who are living abroad.

FELIX F. FLUSS.
Vienna.

For Democracy?

Gloria Emerson's news article (Feb. 24) on the nine-month jail sentences handed down in Saigon to two Roman Catholic priests for published war criticisms seems to deserve more than last-column, second-page space.

Americans have been asked (or told) to accept a great deal in Southeast Asia in the interests of our "democratic ideals." Even though most of us are more sophisticated than that, this sort of a story has to cut us quite deeply. As elections again approach in Saigon, no amount of governmental double talk can completely obliterate certain truths. Not a democratic model, not South Vietnamese liberties, but a fascist monster seems to be what so much blood has been spent over. And Vietnamization, if successful, could well be the arming of the monster.

The Mideast Outlook

Clearing and Cooler

By Joseph Alsop

WASHINGTON.—The Russian troops manning the SAM-3 anti-aircraft missiles along the Suez Canal have now been pulled back, to be replaced by Egyptians with Soviet advisers. Militarily, the development is not overly significant. Symbolically, however, it is crucial.

It symbolizes a sharp shift in the Soviet posture in the Middle East, obviously resulting from a reassessment of the risks in Moscow. Because of this shift in Soviet policy, the nightmare of the last 12 months seems less and less likely to be turned into horrible reality.

The nightmare was a Soviet-supported attempt to crush Israel by naked military might. Month by month, ever since last winter, the detailed Soviet preparations for such an attempt had been going forward relentlessly. It had to be assumed that the Soviets were quite likely to do what they were visibly preparing to do.

Until after the new year, there was not a shred of hard evidence to balance against this evidence of active military preparation. Now, however, the withdrawal of the Russian missile-battalions from the critical strip along the Suez Canal is only one item in the total of new evidence.

Another such item is Egyptian President Sadat's proposal of a general troop pullback, to be followed by the reopening of the canal. And yet another item is the relatively down-to-earth character of the last Egyptian contribution to the negotiations being conducted by UN Ambassador Gunnar Jarring.

Behind these developments, moreover, it can now be stated that there was something even more solid and important. There was a definite turning point in Soviet Middle Eastern policy, in fact, which is now known to have been signaled during the mid-January visit to Egypt of the Soviet president, Nikolai V. Podgorny.

Podgorny brought along in his party members of the Soviet general staff, who had the task of imparting the results of the Soviet reassessment to the Egyptian high command. With Soviet encouragement, the Egyptians had just been conducting rather public exercises with their new, Soviet-supplied canal-crossing equipment. So what the Egyptian high command now heard must have been distinctly unpalatable. There were three key points in the Soviet military message.

First, it was stated to be Soviet policy to help the Egyptians defend their existing territory from Israeli incursions; but the Egyptians were warned they could no longer hope for Soviet support in any attack on the Israelis.

Second, this automatically ruled out the large-scale canal-crossing, followed by a great battle for Sinai, that had been in visible preparation for nearly 18 months. Without the most active Soviet support, such an enterprise was unthinkable.

Third, and finally, the Soviet military even warned the Egyptian military against any resumption of the "war of attrition." The Egyptians were bluntly told that they were not even strong enough to resume the war of attrition without active Soviet support. And there would be no Soviet support for a resumed war of attrition despite the fact that the Soviets had undoubtedly supported it before the cease-fire, in Nasser's time.

Podgorny's Advice

In addition, it is known that ex-President Podgorny urged the Egyptians to accept a six-month extension of the cease-fire along the canal. Here he was resisted, however, for only a month's extension was accepted in Cairo. Officially, the extended cease-fire in fact expires on Sunday.

It can be seen, then, why there is little disquiet about the danger of the cease-fire's non-renewal, despite the brief time left before it runs out. Yet this is only a minor aspect of the really major and central development: simply the rather abrupt Soviet retreat from the very brink of a Middle Eastern military adventure of the gravest and most terrible kind.

There can be no doubt at all that such an adventure was being seriously considered in Moscow—although it cannot have been finally decided upon—for many months on end. The preparations going forward, almost from the beginning of 1970, spoke ten times louder than the mendacious denials of Soviet diplomats.

As noted in a previous report in this space, the Israeli intelligence services give a generous share of the credit for the shift in Soviet Middle Eastern policy to the boldness and courage President Nixon has shown on the other side of the world, in Vietnam. It remains to be seen, however, whether American diplomacy will make a hash of the much changed, far more hopeful Middle Eastern situation.

The Scrutable East

By Norman Webster

PEKING.—The picture that the Chinese press draws of the United States is doleful. It must rival in gloom the one most U.S. readers used to be given in China.

The United States is seen as a country with a handful of capitalists and masses of exploited workers, of polluted air and water, of oppressed minorities, of economic and social, physical and spiritual decay. Its economy is riddled with capitalist contradictions and in dreadful shape. It suffers from galloping inflation, record budget deficits, balance-of-payments problems, dwindling reserves, stock-market uncertainties, massive unemployment and bitter strikes.

Strikes are given great play in the Chinese press, usually described as worker revolts against employers who treat them like machines and refuse to pay a living wage. (Those "pitiful" wages—of the teamsters, for example, or General Motors workers—are never given in absolute figures.)

The problems of U.S. minorities are treated with much sympathy. Black Americans are most frequently mentioned, but stirrings in the Mexican, Puerto Rican and Indian communities also get good coverage. Often these oppressed minorities, while peacefully demonstrating for their rights, are set upon by brutal police under the command of cruel authorities.

Student Activists

Luckily, allies are appearing on the scene. Members of that other oppressed minority, the U.S. students, are becoming increasingly aware of the rottenness of things in general and coming to fight alongside the downtrodden masses. Joining them, of course, are the workers.

The workers? Hardhats and radical students hand in hand? White laborers and Black Panthers, brothers under the skin? Well, yes, if you read your New China News Agency reports, all together in a revolutionary mass that will soon go critical, shatter the shackles of exploitation and overthrow the capitalist ruling class.

Spiro Agnew may have his Silent Majority. The People's Daily has its own: "The American workers, the oppressed black people, the other minority nationalities, the poverty stricken landtillers, the revolutionary intellectuals and other revolutionary people... Today they are no longer the 'silent majority.' They are the awakening majority, the indignant majority, the fighting majority." (Just where the astronauts, say, would fit in is not clear: moon landings are not reported here.)

Rulers and the Ruled

An important point is the line drawn between rulers and ruled. The U.S. people are class brothers deserving of sympathy and support. Their leaders most definitely are not. At the head of these blackguards, of course, is President Richard Nixon—capitalist stooge, fascist, war maniac, stupid liar, hangman, abettor of narcotics peddlers.

U.S. foreign policy manifests Nixonian evil. U.S. imperialism, aggressive and bloodthirsty, is raging wild in Indochina and gravely threatening this country. Nixon props up hostile fascist regimes all around the periphery of China and is fostering a revival of Japanese militarism. He is in league with those Communists gone dreadfully astray, the Soviet social imperialists. He bullies and interferes almost everywhere on the globe.

But a new day has dawned. The United States is doomed to defeat in Asia—even if it uses its "paper tiger," the Bomb. It is suffering setbacks in Latin America, in Africa and the Middle East, even in Europe. The heyday of U.S. imperialism is over, and this is accelerating U.S. economic decline—which further aggravates class contradictions within the country and brings the day of revolution ever closer. In 1976 perhaps.

U.K. Growth Outlook Dim, Institute Says

Warns Unemployment Likely to Rise Again

LONDON, March 4 (AP-DJ).—Great Britain's gross domestic product (GDP) is expected to show real growth of no more than 1 percent in 1971 and 1.75 percent in 1972 if current government policies are not changed, the National Institute of Economic and Social Research said today.

The institute estimated that the GDP, or total value of goods and services produced in Britain, increased only 1.5 percent in 1970.

The percentage comparisons are made with seasonally adjusted figures based on 1963 prices.

The institute, an independent non-profit enterprise, also made these forecasts in its quarterly review:

- The balance of payments "should remain strong" with the current account showing a surplus of £600 million ($1.44 billion) this year, unchanged from the estimated 1970 surplus.
- Gross fixed investment is expected to increase 2.75 percent this year and again next year as compared with an estimated increase of 0.5 percent in 1970.
- Consumer spending is expected to rise 2.25 percent this year, compared with an estimated increase of 3 percent in 1970.
- Exports are expected to increase 2.75 percent this year, compared with an estimated 5.5 percent gain last year.
- Imports are expected to increase 5.25 percent this year compared with an estimated 6.75 percent increase in 1970.

The institute said information available since its last economic report in November "points toward a more pessimistic outlook for growth."

The economic prospects, it said, have the "most serious implications for unemployment."

It said the seasonally adjusted rate of wholly unemployed, excluding school leavers, "seems likely to rise" to between 3.5 and 4 percent of the total work force by the end of this year and "still further through 1972." This measure of unemployment now stands at 2.7 percent.

Tax Cuts Urged

LONDON, March 4 (UPI).—If Britain is to prevent rising unemployment, the government will need to boost the economy, preferably through cuts in indirect taxation, the institute said. Tax cuts, costing the government about £500 million ($1.2 billion) in a full year, would be a modest first installment, it said, toward stimulating the economy.

The economists said that the rate of inflation was unlikely to be changed much one way or the other by policies designed to expand real demand. The institute still would prefer to see an income policy implemented, although this is opposed by the government. It forecast a faster climb for prices in 1971 than occurred in 1970.

U.K. Makes Proposals on Rolls Engine

LONDON, March 4 (UPI).—Lockheed Aircraft Corp. chairman Daniel Haughton flew back to the United States today with proposals to save the Rolls-Royce RB211 jet engine, the power plant of his firm's TriStar airbus.

Mr. Haughton told newsmen at Heathrow Airport that the British government had offered certain proposals to save the engine which, when production costs exceeded estimates, forced Rolls to receivership in early February. He did not specify the proposals.

He said he would put them to the firms that had placed orders for the airbus.

"Nothing more firm can be said until I meet our clients in New York tomorrow," he added.

Earlier today, Mr. Haughton had met with British Prime Minister Edward Heath, Defense Minister Lord Carrington and Minister of Aviation Supply, Frederick Corfield.

...ed Cites Threat Of Wage Hikes

WASHINGTON, March 4.—Continuing heavy wage demands beyond likely gains in productivity pose a major threat to containing inflation this year and over the longer run, the Federal Reserve Board warned yesterday.

In a preview of its annual economic report, the Fed said policies to revitalize the U.S. economy must be tempered to avoid encouraging a rebound of inflationary pressures and expectations and to avoid weakening the U.S. competitive position in world markets.

But the report stressed the Fed's confidence that 1971 could witness a "relatively vigorous" economic recovery, depending on the confidence of consumers and their willingness to spend money at a faster clip.

Will Impose Penalty Duties

U.S. Rules Japanese Dumped TVs

WASHINGTON, March 4.—The U.S. Tariff Commission notified the Treasury today that imports of television sets from Japan were being sold at less than fair value in the United States and should be subject to special dumping duties.

In acting on the biggest single Anti-Dumping Act case in the 50-year history of the law, five of the six members of the commission voted unanimously. The commission chairman, Chester Mize, recently named to the panel, did not participate in the decision.

The commission ruled that the sets being sold at less than fair value were damaging to U.S. industry.

The ruling climaxes a government investigation started in mid-1968 after U.S. TV producers and electronic parts makers complained that the Japanese manufacturers were violating U.S. law. It is now up the U.S. Customs Bureau to determine the amount of anti-dumping duties, in addition to regular tariffs, that will be assessed against the Japanese sets.

Last December, the Treasury found both monochrome and color sets from Japan were being sold at less than fair value and asked the commission to rule on whether they were damaging U.S. industry.

At that time, the Treasury said the major firms involved were Matsushita Electric, Hitachi, Hayakawa Electric, Tokyo Shibaura Electric and Sony. But Sony later announced that the penalty-setting Customs Bureau had assured it that no dumping charges were being made against Sony.

H. William Tanaka, a Washington attorney for Japan's electronic industries association, said the dumping rulings may be appealed. He contended that the Treasury changed its anti-dumping enforcement policies during the time that the TV case was under investigation and that the changes made today's rulings possible.

U.S. TV imports from Japan totaled 3.3 million sets with a value of $255 million in 1970 and accounted for about three-fourths of total TV imports.

Auto Makers Critical

WASHINGTON, March 4 (AP-DJ).—While U.S. auto makers are becoming critical of the export pricing practices of their Japanese competitors, U.S. officials and auto industry sources said it is unlikely that this would lead to any filing of dumping charges.

Henry Ford, 2d, chairman of Ford Motor, currently visiting Japan, was reported yesterday to have criticized the sales price of Japanese-manufactured cars in the United States.

But U.S. officials and industry spokesmen agree that Ford and other U.S. manufacturers probably would not want to file dumping charges for several reasons. Such a move, they suggested, would be "self-defeating" at a time when the U.S. firms are actively seeking Japanese government approval for their entry into the Japanese industry.

Auto Sales in U.S. Climb; Imports' Market Share Up

DETROIT, March 4.—Sales of new cars in the United States climbed 9 percent in February, with both foreign firms and U.S. overseas subsidiaries taking larger chunks of the market.

Some 744,988 new autos were sold in the U.S. market, of which imports by non-U.S.-owned firms accounted for 93,753, up 24.5 percent from the year-ago level.

Thus, overseas firms captured 12.5 percent of the U.S. market during the month, up from 11 percent in February, 1970. Foreign subsidiaries of U.S. firms took 2 percent of the total, up from 1.5 percent a year earlier.

Domestic Gains

The "Big Four" U.S. auto firms reported a 6.4 percent sales gain in the month, to 636,041 autos sold from the 597,763 total in February, 1970.

Of the four, Ford showed the biggest gain, 10.5 percent to a total 187,094 cars, with General Motors, still recovering from a ten-week strike last fall, registering a 9.5 percent gain to 334,813 autos sold.

At Chrysler and American Motors, however, sales sagged. The former showed a 7.3 percent decline, to 92,887 sales while AMC turned in a 5.8 percent drop, to 21,247.

For the first two months of the year, domestic U.S. producers showed a 7 percent sales gain, to 1.22 million units from 1.14 million in the year-ago period. Among non-U.S. firms, the most spectacular gains were registered by Datsun, with a 195 percent sales increase to 14,051 and Toyota, up 55 percent to 20,075. That put the firms into the No. 3 and No. 2 spots, respectively, on the list of top U.S. importers.

Volkswagen, still No. 1, showed a 2.7 percent sales decline in February to 40,187, which it blamed on a shortage of models available.

Among other notables were Fiat, No. 8, whose sales rose 50 percent, Mercedes-Benz, No. 9 with a 46 percent gain and Volvo, No. 7, up 27 percent.

If the importers' percentage gains appear to leave the U.S. industry in the shade, however, it must be noted that U.S. overseas subsidiaries raised their U.S. sales by a third, to 15,144 units.

Libya Sets Partial Gas Pact

TRIPOLI, Libya, March 4 (AP-DJ).—Libya announced today partial settlement of its conflict with Standard Oil of New Jersey over liquefied natural gas to be shipped from Marsa el Brega, the largest such plant in the world.

Shipments from the $350 million plant had been blocked for nine months. Under the new contract, the price of the gas will rise to 34 cents per million British Thermal Units from 20.6 cents.

According to the government communiqué, however, the new agreement applies only to exports to Spain. Under the original Esso plan, about a third of the output was to go to Spain, the rest to Italy.

The communiqué said that when Esso agrees to the new price being applied to Italy, shipments to that nation can begin.

An Esso official confirmed an agreement had been reached covering Spain and said tankers had been sent for. Shipments are expected to begin early next week.

Shipments to Spain are to total 240 million BTU daily.

Associated Press.

OVERHEAD RAIL—A montage of the proposed CAT system shows passenger cabins which would carry up to three persons at 20 miles an hour—twice as fast as streetcars go.

Commuters May Go CAT Under German Firms' Plan

DUISBURG, West Germany, March 4 (AP-DJ).—Demag and Messerschmitt-Boelkow-Blohm of West Germany are developing a commuter transport system, called Cabinentaxi (CAT), that would consist of small cabins suspended from a monorail and steered by computer.

The system, traveling above city streets, would be nearly noiseless and produce no air pollution, sources said. Each CAT would carry a maximum of three persons.

The prospect of a working CAT system has prompted the city of Prefburg to postpone plans for a new streetcar line. Duesseldorf, Mannheim and Munich also are reported to be interested.

Demag plans a test CAT strip for 1973. The developers think the cost would be about 10 to 15 cents a mile per passenger. It is estimated that one mile of the CAT system would cost $1 million to build as opposed to $1.4 million for a mile of streetcar track and $20 million for a mile of subway.

The system would involve a pair of monorails connecting two points and elevated 18 to 24 feet above the street.

The small cabins and the need to maintain certain distances between cars make the system capable of transporting only an estimated 12,000 persons an hour in one direction, whereas a subway line can handle about 35,000.

A similar overhead suspended system is being tested in France. Its 30-passenger cabins would be propelled by linear induction motors which tug it to speeds of 30 miles an hour. A three-mile test route is expected to be completed next year in Lyons.

General Host Losses Cut Back Last Year

NEW YORK, March 4 (NYT).—General Host cut its deficit from operations last year to $3.94 million from $6.87 million in 1969, partly as a result of its increase in sales and other income.

Revenue rose 9 percent to $152.3 million from $139.31 million.

Pet losses after extraordinary items totaled $11.95 million compared to $67.25 million in 1969.

NYSE Hesitation Waltz Turns Into Fast Polka

NEW YORK, March 4 (Reuters).—Wall Street rallied itself out of a two-and-a-half week backing and filling phase today as prices on the New York Stock Exchange rose sharply in the most active trading of the week.

The Dow Jones industrial average gained 8.97 at 891.36.

The Dow closing was the highest since June 13, 1969.

Advancing issues led declines by 2-to-1. Volume totaled 17.35 million shares, up from yesterday's 14.68 million shares.

Analysts said the market's upturn was based primarily on internal technical factors.

Short Covering Seen

One observer noted that there may possibly have been some short covering in the glamour section that was related to anticipation over President Nixon's foreign policy press conference slated for this evening.

He added that there was also some discount rate speculation—normal activity for Thursdays, when Federal Reserve banking statistics are due to be reported.

Fanny May was active and gained 5/8 to 62.

Among other stronger glamours, Flying Tiger was up 1 3/4 to 42 1/8, Johnson & Johnson was up 2 1/8 to 72 3/4, Avon Products gained 2 1/4 to 91 1/4, Digital Equipment added 3 7/8 at 71 1/4, American Research finished ahead 3 3/8 at 58 7/8, Memorex was up 3 1/4 to 63 3/4 and Disney gained 3 7/8 to 97 1/2.

In the blue chip group, Jersey Standard was up 2 1/4 to 77 3/4, Westinghouse gained 1 3/8 to 81 3/4, General Electric was up 1 to 109 3/8 and Eastman Kodak gained 1 5/8 to 75 1/4.

Airlines Gain

Pan American reported that it widened its loss in January from a year ago but it gained 3/4 to 17. Eastern added 1 1/4 at 22 1/8, United was up 1 1/4 to 30, American was up 1/4 at 27 and TWA gained 1/4 to 19 5/8.

Marriott tacked on 1 1/2 at 38 on a report of higher earnings. Tobin Packing listed an earnings improvement and gained 7/8 to 20 3/8.

Union Oil of California, which announced a natural gas condensate find in Mississippi, was unchanged at 37 5/8. Standard Oil of Indiana, which filed with the Securities & Exchange Commission for $200 million of convertible subordinated debentures, fell 1/8 to 59.

General Motors rose 1 3/8 to 81 3/8 and Ford rose 7/8 to 58 7/8. Ford executives said they were considering negotiating with Audi-NSU Auto Union on an agreement to make rotary engines. Chrysler also rose, closing at 27 7/8, up 1/2.

Amex Joins Rally

Prices on the American Stock Exchange joined the rally. The index rose 0.19 to 25.52.

Puritan Fashions gained 7/8 to 24 3/8, reflecting strong investor interest in the apparel group.

Champion Home Builders was actively traded and up a point at 28. Other mobile home stocks also firmed with Commodore ahead 7/8 to 11 1/2.

NYSE Moving on Negotiated Commissions

By Terry Robards

NEW YORK, March 4 (NYT).—The New York Stock Exchange is moving forward with plans to implement negotiated brokerage commissions on stock transactions above $500,000 and apparently will not try to bargain with the Securities and Exchange Commission for a higer cut-off level.

As a result, it is thought probable that a system of negotiated commissions on large transactions will be put into effect by mid-April. It would be the first break with the fixed-commission system which has been in effect since the exchange was founded in 1792.

At the same time, the exchange announced it has abandoned plans to press for an increase in the $15 surcharge for small transactions that has been in effect for nearly a year. Raising the surcharge to $40 in some cases had been proposed at the end of last year.

Votes Necessary

Ralph D. Denunzio, NYSE vice-chairman and chairman of the exchange's costs and revenues committee, stressed in an interview yesterday that any proposed revisions of the rate structure would have to be voted upon by the full board of governors and then by the exchange's membership.

But he noted that there was every indication that the board would try to go along with an SEC directive to put a system of negotiated commissions for transactions in excess of $500,000 into effect by April 1.

He indicated that his committee was trying to decide how best to comply with the SEC directive, rather than draw up counterproposals. The committee's recommendations will be presented to the full board on March 18.

Mr. Denunzio indicated that the idea of raising the surcharge had quietly been allowed to drop, apparently because of the generally improved conditions in Wall Street.

Heavy trading volume in January and February produced increases in commission revenues for brokerage houses. The surcharge had been granted by the SEC early last year to alleviate a financial squeeze in the industry.

FINANCIAL NEWS AND NOTES

Alusuisse, Phelps Dodge Talks

Swiss Aluminium Ltd. (Alusuisse) and Phelps Dodge Co. have reached an advanced stage of negotiations on merging their U.S. aluminum operations into a fully integrated company with sales exceeding $150 million, John Wohnlich, Alusuisse general manager, reports. He said agreement with Phelps Dodge, the second largest U.S. copper producer, could be reached this month whereby Phelps Dodge Aluminum Products Corp. would be merged with Alusuisse's Gulf Coast Aluminium Corp. and consolidated Aluminum Corp. The surviving company, Consolidated Aluminum, would be 60 percent owned by Alusuisse.

Foreigners Invest More in Japan

Foreign investments in Japanese securities almost doubled in February, totaling 53.28 billion yen ($148 million) compared with 26.7 billion yen in January, the Finance Ministry estimates. Foreign investors sold Japanese securities totaling 20.38 billion yen during February, up from 19.19 billion yen in January, leaving a net inflow of 32.4 billion yen in February, about quadruple the 7.51 billion yen net January inflow.

U.S. Eurodollar Borrowings Fall

Eurodollar borrowings by U.S. banks from their overseas branches dropped $211 million in the week ended Feb. 24, the Federal Reserve reports. The sixth consecutive weekly decline in such borrowings brought gross liabilities to overseas branches to $5.66 billion, compared with $13.09 billion in the year-earlier weeks. The new figures indicated an $8 million upward revision in the balance given for the previous week. In another report, the Fed said Eurodollar deposits held by overseas branches of U.S. banks totaled $28.1 billion at the end of 1970, and the average maturity of these deposits was 2.1 months. At the end of last November, such deposits totaled $21.11 billion.

Factory Orders Climb in U.S.

New factory orders in the United States rose 2.5 percent in January from December levels, to a seasonally-adjusted $57.858 billion, the Commerce Department reports. The January increase was the third consecutive monthly rise. But it trailed the revised 3.9 percent December gain over November. New durable goods orders in January rose 3.9 percent, while non-durable orders rose 0.9 percent, the report said. Shipments in January rose 2 percent to an adjusted $56.92 billion, trailing the 3.2 percent rise in December. Manufacturers' inventories dropped 0.4 percent to an adjusted $99.26 billion in January, cutting the stocks-to-sales ratio to 1.74 months from December's 1.79 months.

McCracken: Income Tax Break Possible

By Hobart Rowen

WASHINGTON, March 4 (WP).—A tax break for individuals this year, if the economy needs additional thrust, "is within the bounds of reasonableness," Paul W. McCracken told reporters today.

Mr. McCracken, chairman of the President's Council of Economic Advisers, was responding to suggestions made by Arthur M. Okun, his predecessor at the CEA during the Johnson administration, and Maurice Mann, until recently a high official in the Office of Budget and Management.

At a seminar here of the National Association of Business Economists, Mr. Okun and Mr. Mann, in separate speeches, urged adding new stimulus to the budget by:

- Making effective immediately the increases in the personal exemption and standard tax deduction scheduled to go into effect in January, 1972 and 1973.

Not Ready Yet

- Postponing the proposed increase in the taxable earnings base for social security payroll taxes, Mr. McCracken made it clear that he was not ready to take any steps now. But he said that progress in achieving the administration's goal had to be monitored carefully, then added:

"The facts are not yet adequate to judge whether the economy is moving on the course laid out. The data we now have ... clearly suggest an expanding economy, with further gains ahead. But the pace must quicken further if we are to make sustained progress toward working down the rate of unemployment."

Mr. McCracken's cautious comment was the first on-the-record administration suggestion that the economy might need some additional push this year.

AFCA watch it go

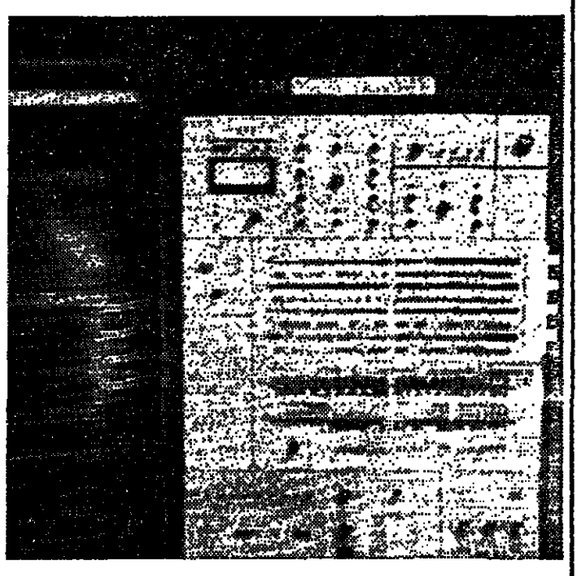

First General Resources Company
A Public Company Established In 1962 With Assets In Excess Of $ 50,000,000
OVER THE COUNTER:
Wednesday, March 3, 1971.
Bid: 7 1/4 Ask: 7 3/4
505 PARK AVENUE, NEW YORK, N.Y. 10022

We are pleased to announce the offer of
$5,000,000.00
AMERICAN INCOME PROPERTIES BOND AND SHARE, N.V.
8o/o Convertible Bond
Due March 1, 1981.
Interest payable September 1, March 1.
Convertible into Common Stock of the Company on or before March 1, 1981, at a conversion price of $10.00 per share.
PRICE: 100 0/0
PLUS ACCRUED INTEREST
Copies of the Prospectus may be obtained from banks and other institutions with which the Company has a selling Agreement.
For further information contact:
UNIVERSAL AMERICAN MANAGEMENT COMPANY
Barclay's Bank Building
Grand Cayman, British West Indies
CURAÇAO INTERNATIONAL TRUST COMPANY
Handelskade 8
Curaçao, Netherlands Antilles.
This is not an offer to sell nor a solicitation to buy the Company's Bonds in any country where such offer or solicitation is illegal.

Your air shipment can't hide from Emery.

The USA is a vast and complex country—big enough for a shipment to get lost easily unless it's watched all the way. Our computer does just that on your air shipments to and from America.

Every Emery shipment that originates in or enters the USA is recorded and monitored by EMCON—the world's first and only completely computerized air freight system.

Your local Emery office can give you full details on your USA shipments at any time. At computer speed.

Once EMCON gets its "eye" on your shipment, it is never "out of sight."

SOCIETE CONTINENTALE DE GESTION FINANCIERE SA

Lausanne

In the light of its expanded activity, this Company has increased its capital from 8 to 28 million Swiss Francs by the issue of 20 thousand registered shares.

The new capital divided into 28 thousand registered shares of one thousand Swiss Francs each is fully paid up.

The majority of the newly issued shares has been taken up by the group of the Continental Grain Company of New York and the Banque de l'Indochine, Paris.

Other shareholders of the Company are:

Cofinindus S.A., Brussels
(one of the Bank of Brussels Group of Companies)
Flaminia Nuova S.p.A., Rome
Banque Cantonale Vaudoise, Lausanne.

The Société Continentale de Gestion Financière S.A. operating under the regulations governing a Company of limited liability has the status in Switzerland of a Finance Company with the characteristics of a Bank but having no right of appeal to the public for deposits.

Music.

From rock sessions to eisteddfods, the Herald Tribune keeps you *au courant* on the current European musical scene.

And you'll find advance news of concerts and festivals in the advertising columns of this newspaper.

Services.

Whether you walk dogs or clean rugs or administer trusts, tell prospects what you do in the pages of the Herald Tribune.

It's the *one* international daily newspaper in all of Europe — the one paper on sale each morning from Oslo to Naples.

News.

Reporting as objective as humanly possible, plus background to put events into perspective — *that's* what we call news.

Interpret this news with signed editorial comment and you have the Herald Tribune — Europe's *one* international newspaper.

Wines.

What's your pleasure? An amusing little Bordeaux? A "presumptious" Burgundy? Read the feature pages of the Tribune.

Our experts report regularly on what's potable and where it's available and how much it costs.

A votre santé!

BRIDGE

By Alan Truscott

Two of the world's greatest players, Giorgio Belladonna and Benito Garozzo of Rome, are in the United States for a two-week tour where they spearhead an all-star group playing the Precision Club System, a method whose recent successes have attracted worldwide attention.

Teaming with the two Italians are four of America's top-ranked experts, Robert Jordan, Arthur Robinson, Peter Leventritt and Victor Mitchell. The all-star team opened its American tour last weekend with an overwhelming victory by 106 international match points over a Cincinnati squad.

At both tables South reached a contract of four spades after he had opened one spade in third seat and West had made a preemptive jump to three hearts. When Leventritt held the North cards he raised directly to game.

The Cincinnati North contented himself with three spades, and his partner continued to game after Garozzo as East had ventured four hearts.

At both tables West cashed two heart winners and shifted to the eight of diamonds. A low card was played from dummy, and East's ten was won by the queen in the closed hand. Trumps were drawn in two rounds, ending in the dummy.

As East had played high-low in hearts, both declarers knew that West held a seven-card suit originally, together with a doubleton spade. There was some reason to think that his original distribution was 2-7-3-2: The defenders would probably have collected a diamond ruff if West had held a singleton in that suit, and the shift would have been to clubs with a singleton there.

If the clubs were six-two the odds were three to one in favor of East having the queen. The Cincinnati declarer therefore finessed the club ten, and when this succeeded he was able to discard a diamond later on the club king.

Mitchell as South found a better plan. He cashed the club ace and played all his trumps, saving the diamond king and king-jack of clubs in dummy. East saved the diamond ace and the queen-nine of clubs, and was end-played by a diamond lead.

The advantage of Mitchell's play was that he would have succeeded if West had held a singleton or doubleton queen of clubs. He converted a 75 percent chance into a virtual certainty, but he did not make a profit. The deal was a stand-off.

D'ALEMBERT'S ENDE

By Helmut Heissenbuttel. Luchterhand Verlag. 388 pp. 24.80 DM.

Reviewed by Betty Falkenberg

NOTHING unmasks like a quote. Today, citation collage is a favorite device not only in avant-garde films but in serious German prose as well. The latest novels of two such different authors as Formentor Prize-winner Uwe Johnson and Buchner Prize-winner Helmut Heissenbuttel are both exercises in this vein.

Johnson, known as the bard of Germany's divided halves, sets out in "Jahrestage" (Days of the Year), not just to bridge two Germanys, but to straddle two continents. The year is 1967, the first entry August 21. Nearly every chapter begins with a news item quoted from The New York Times.

Gesine Cresspahl, born in Mecklenburg in 1933, the year of Hitler's seizure of power, works in a New York bank and lives on Riverside Drive with her 10-year-old daughter, who attends a Catholic private school. Spared all the "incommodious" realities of public school attendance, she acquires all the *right* liberal attitudes. She learns to say O.K. and to exhibit posters protesting against Vietnam.

Gesine rides to work each morning with her vademecum, The New York Times, tucked under her arm. Her entire world is filtered through this organ which she regards as a venerable, aging aunt. Of The New York Times, Johnson has the following to say:

"She doesn't scream, she lectures."
"She gives space even to those whom she detests."
"She calls a rumor a rumor."
"She helps the poor with mild donations, and makes scholarly studies of poverty."
"She preserves the purity of the language, even to the point of correcting her clients in their advertisements."
"She admits errors, upon occasion."

More specifically, Johnson cannot forgive The Times for devoting endless columns to the doings and sayings of that "unregenerate daughter of Attila," Svetlana Stalin, nor for the hypocritical (in his view) appeal for Christmas funds for the hundred neediest, tacked on at the end of articles that, to him, have strong capitalist or imperialist leanings. Throughout there runs an implied comparison between the early pre-fascist climate in Germany and America in the 60s. And if there is any character in "Jahrestage" really felt by the author, with almost obsessive ambivalence, then it is not Gesine, nor her daughter, it is The New York Times.

Beginning each day with a report from the world at large, and narrowing down to national and local items, Johnson moves swiftly to focus on an event, either past or present in the life of Gesine, letting the moral counterpoint or parallel speak for itself. Thus he kills two birds with one stone. Past and present horror are equated. If this is a facile method, it is not without effect. The effect, however, is not emotional but cerebral, to pinpoint political or ideological analogies. At times one almost feels one has been had by a brilliant dialectical trickster.

Always one is aware of being in the hands of an expert conjuror, a conjuror of political scenes, of city landscapes, an alchemist of the precise word for the precise detail. But never does the conjuror conjure a living person. Gesine Cresspahl remains a sum of the facts in her dossier. In all the 478 pages not a single smell, no taste, is recorded.

"Jahrestage" is part of a larger epic as yet unfinished. A translation into English is in progress and will be published by Harcourt, Brace and Jovanovich.

In "D'Alembert's Ende," quotation is not just a device. It is the form in which the entire novel is conceived. If Johnson has epic ambitions, Heissenbuttel refuses even to tell a story. The book begins on a deceptive cadence. We are introduced to two characters, Edward and Ottilie, who appear to be conversing in the tones of that famous pair in Goethe's "Wahlverwandschaften" (Elective Affinities). But before the first chapter is over, we realize that not only Edward and Ottilie, on board the Munich-Hamburg express, but we, too, have been taken for a ride.

The deceit-conceit has just begun. Edward and Ottilie are discussing colleagues in the radio-TV world: D'Alembert, Samuel Johnson—but, just as Edward and Ottilie are no fated lovers, so these characters have little in common with their famous namesakes. Not only do they lack the idiosyncratic turn of mind that made their namesakes great, they lack any personal traits whatsoever. Their conversations are stylized repetitions of each other's views, which are in turn the current in-views of their caste.

Doggedly pursuing his maddening method where each character repeats the words and expletives of every other, Heissenbuttel then makes fun of himself, suddenly interrupting some high-flown doubletalk to say, "And so on," or "See above." Interjected at the crucial moment, this technique becomes in itself hilarious. The dinning repetitions catch the desperate vacuity of German intellectual life (the year is 1968), its emotional barrenness and political impotence. D'Alembert is a build-a-man set of intellectual possibilities tried on for size. Any and all fit. Only at the end of the book does he begin a meek probing of his true self.

In a quotation used by Heissenbuttel as his motto, Thomas Mann expounds the musical as well as the mechanical character of the citation, its unique ability to absorb fiction and reality into each other. It is precisely this kind of synthesis of word and music, fiction and reality, which "D'Alembert's Ende" achieves.

Betty Falkenberg is a free-lance writer who lives in Germany.

Pre-Fight Physical of Century

By Robert Lipsyte

NEW YORK, March 4 (NYT).—Seven years ago Cassius Clay staged his mad scene at the weighing-in ceremony before the first Sonny Liston fight, and forever spiced that shabby ritual with anticipation. Ever afterwards, men left weighing-in ceremonies disappointed. "Can't be much of a fight," they'd say to each other, "neither guy was so much as foaming at the mouth." They began issuing tickets to weigh-ins, and holding them earlier and earlier on fight day so as not to interfere with network cameramen's other assignments. Yesterday, boxing took an enormous step forward, one in keeping with its latest fight of the century. Tickets, pink tickets, were issued to the pre-fight physical examinations held in the Felt Forum of Madison Square Garden.

Joe Frazier appeared first, at about 12:30 p.m., to be examined in the ring by Dr. A Harry Kleiman of the New York State Athletic Commission. Madison Square Garden's publicity director, John F.X. Condon mysteriously warned the women in the crowd of several hundred that "it might get embarrassing."

Positive But Uninspired

Frazier's style, in the ring or behind the microphone, is pretty much the same—positive but uninspired. When asked what he thought of the "ballyhoo" these last few days before Monday night's fight, he looked at the crowd of newsmen and said: "Everybody's got a job. You guys are not here for charity." When asked about Muhammad Ali, he said: "I think it's going to be bad for him. I really do." And when asked about himself: "I'm cool, man, I'm ready for this one."

Ninety minutes later, shrieking from the wings, came the pink ticket himself. "Where's Smokey Joe," cried Ali, stomping up into the ring. "He was here, was he smoking? He's smoking too much, gonna get cancer. Get TB. How's he gonna fight if he smokes?"

Dr. Kleiman, with the unhappy straight man's cotton-eating grin, began moving through the scheduled exam. His first question was too soft to be heard.

"Was I ever stopped?" shrieked Ali.

'Please open your mouth and say. . .'

Dr. A. Harry Kleiman.

'You mean I got to open my mouth?'

Muhammad Ali.

"Just a routine question," muttered Kleiman apologetically. He whispered something else.

"Headaches?" shrieked Ali. "I never get hit."

Kleiman straightened up. "Is there any reason you shouldn't fight?"

"Only reason I shouldn't fight: that's if Joe Frazier don't show up."

"Have you ever had any accidents?"

"Hernia, about five years ago."

"Have you been to a doctor in the last few weeks?"

"Nothing I can talk about... No, I'm just joking."

"Is there any other information you can give us?"

"About what?"

"Your physical condition."

Ali looked slyly at Kleiman, *then out at the television cameras* whirring, the still cameras clicking, the pencils moving over notebooks. "Would you stop the show if I had a sore toe? Now, would you stop all of this if I said I was hurt?"

Kleiman seemed cool, although he looked around for assurance. Condon, holding a microphone near Ali, smiled. Edwin B. Dooley, Chairman of the New York State Athletic Commission, was fully occupied maneuvering himself in front of cameras.

"Please open your mouth and say..."

"You mean I got to open my mouth?"

Kleiman shone lights in Ali's *eyes and ears, took his blood*-pressure, thumped his chest, and tapped his knees and arms with a rubber hammer.

"Nobody never did all this before," said Ali.

"Got to give you a good checkup, you're fighting for all that money," said Kleiman.

"That shouldn't mean nothing."

When the pre-fight physical of the century was over Kleiman said that Ali, like Frazier, was in fine shape. Both had slightly rapid pulses, which he diagnosed as "a good sign" that they were "really ready to go." His prognosis: "We should be in for an awful lot of fistic dynamite Monday night."

Injunction Sought

NEW YORK, March 4 (Reuters).—Jerry Perenchio, head of the firm which holds the closed-circuit television rights to the fight, sought a court injunction to prevent the Mutual Broadcasting System from carrying out its stated intention of broadcasting delayed round-by-round accounts and special bulletins on its progress before the fight ends.

Mutual reportedly was going to use the running descriptive provided by news agencies from ringside.

The suit for an injunction also demanded damages of $10 million.

The suit will be argued tomorrow in New York State Supreme Court here before Justice Andrew P. Tyler.

Restraining Order

Judge Tyler has already signed a temporary restraining order preventing Mutual, the largest radio network in the United States, from advertising that it would provide any descriptive broadcasts while the bout is in progress.

In a supporting affadivit, Perenchio said his firm, Chartwell Artists Incorporated, had purchased the exclusive ancillary rights, including closed-circuit television, for the fight for $5 million.

These rights were assigned regionally to various closed-circuit TV agencies in North America with the understanding there would be no other "live" or delayed radio or TV broadcasts in their areas, Perenchio said.

Special Rule for Knockdowns

NEW YORK, March 4 (WP).—Muhammad Ali and Joe Frazier were warned yesterday that a special rule would be in effect for knockdowns in Monday night's fight in Madison Square Garden.

Ed Dooley, chairman of the New York State Athletic Commission, said a boxer scoring a knockdown will be required to go to a neutral corner or the count will be stopped at "eight." Dooley added later that a violator also might be fined $5,000.

Ali did not go to a neutral corner after the first of the three knockdowns of Oscar Bonavena in the 15th round in their December bout. He stayed close to the Argentinian, pounced on him as soon as the eight-count was finished, and eventually won on a knockout.

Dooley also ruled that Frazier would have to shave off his beard, but would be permitted to keep a mustache.

Harry Markson, director of boxing for the Garden, was asked if there was a provision for a return bout in the contracts of the boxers. He said there was, between the fighters and the Chartwell closed circuit telecast firm, but not with the Garden.

Ali returned to Miami last night, his original plan, after promising to remain in New York during weigh-in questioning. He is scheduled for private workouts there today and tomorrow and will return to New York on Saturday. Frazier returned to his Philadelphia training quarters until Saturday night. He is being quoted as a 7-to-5 favorite in the betting.

Associated Press.

MUGGING SHOTS—Muhammad Ali (left) and Joe Frazier mug for camera at separate physicals at Madison Square Garden where they were both pronounced fit to fight for the heavyweight championship of the world Monday night in New York City.

Streaking Marquette 5 Tunes Up

NEW YORK, March 4 (UPI).—Al McGuire has his Marquette machine tuned and ready for the NCAA playoffs.

The Warrior put on a devastating second-half show last night as they ripped Bowling Green, 96-74, for their 25th victory without a loss this season and 37th over a two-year span. They are closing in on the third longest streak in major college basketball history, UCLA's 41 straight that was snapped by Southern California in March, 1969.

Marquette, second-ranked behind UCLA, can go unbeaten for the first time in regular-season play if it defeats Xavier of Ohio Saturday. The Warriors will meet Miami of Ohio March 13 in the opening round of the NCAA playoffs, a tournament they snubbed last year because McGuire felt he was being placed in the wrong regional bracket.

Dean Meminger, held to three points in the first half last night, led a 24-1 burst in the first 4-1/2 minutes of the second half that put the game away. Meminger finished with 20 points while sophomore Jim Chones and Bob Lackey had 19 each.

Miami of Ohio made it 13 in a row by whipping NIT-bound Dayton, 83-53. The champions of the Mid-American Conference, now 19-4, were led by sophomore Larry Garloh with 25 points.

North Carolina downed North Carolina State, 87-81; Villanova ripped Boston College, 90-77; Syracuse nipped Niagara, 60-59; Oklahoma beat Iowa State, 95-88; Providence upset St. Bonaventure, 88-86, and Assumption trounced Fairfield, 93-67.

Dennis Wuycik scored 25 points and 12th-ranked North Carolina pulled away in the second half to beat North Carolina State and clinch the regular season Atlantic Coast Conference title. The Tar Heels must win the ACC playoffs, however, to earn a trip to the NCAA regionals.

Howard Porter scored 22 points as Villanova cruised past Boston College and Chuck Wichmann, a little-used reserve, hit a layup with 26 seconds left to boost Syracuse past Niagara.

Clifford Ray scored 12 points, blocked ten shots and grabbed off 19 rebounds as Oklahoma kept its National Invitation Tournament hopes alive by beating Iowa State, and Providence, with sophomore Nehru King hitting 27 points, stunned NIT-bound St. Bonaventure.

Assumption, playing its first game since being crowned small college champion by the UPI board of coaches, ended its season with a 23-1 mark by beating Fairfield.

Major College Black Coach

BOSTON, March 4 (UPI).—Boston University appointed the first major college or university division black basketball head coach Monday when former football assistant *Ron Mitchell* was appointed varsity basketball coach.

Mitchell is a former assistant basketball coach at his Kentucky State College alma mater. Boston University officials said they were "proud to promote someone from within our own athletic department."

Cincinnati 133 (Van Arsdale 23, Lacey 23), Baltimore 132 (Carter 32, Loughery 28).
Boston 128 (White 34, Havlicek 26), San Diego 112 (Hayes 35, Murphy 20).
Atlanta 109 (Maravich 32, Hudson 28), San Francisco 105 (Thurmond 25, Mullins 19).

Bucks Win, Approach NBA Mark

1 Shy of Knicks' Record 18 in Row

MILWAUKEE, March 4 (AP). Only a pair of also-rans can keep the Bucks out of the record book.

Lew Alcindor, who has been leading Milwaukee through streak after streak this season as the National Basketball Association's scoring leader, got only 15 points—half his average—against Los Angeles last night.

But the Lakers had to play without their scoring leader, Jerry West—and probably won't get him back until next season—and that enabled the Bucks to coast to their 17th consecutive triumph, 112-97.

The victory put them only one shy of the league record set a year ago by the champion New York Knicks. The Bucks play the Buffalo Braves tonight and Detroit tomorrow. Milwaukee has lost only once in eight games against the two teams, last in their respective divisions.

Celtics 128, Rockets 113

John Havlicek broke Sam Jones's Celtic single-season scoring record with a 26-point performance as Boston scored a 128-113 home victory over San Diego. Havlicek has 3,086 points for the year and Jones, who set the mark in the 1964-65 season, had 2,070. Jo Jo White led the Celtics with 34 points and Elvin Hayes was high man for the Rockets at 35, 31 in the first half. Havlicek also had ten assists and 13 rebounds.

Royals 133, Bullets 132

Norm Van Lier's free throw with two seconds left in overtime gave Cincinnati a 133-132 road victory over Baltimore and prevented the Bullets from clinching the Central Division championship.

Suns 115, Bulls 99

The backcourt duo of Clem Haskins and Dick Van Arsdale teamed for 51 points as Phoenix broke Chicago's seven-game victory streak with a 115-90 victory. Haskins paced the home team Suns with 28 points—12 in each of the closing quarters.

Hawks 109, Warriors 105

Rookie Pete Maravich scored 13 of his game-high 33 points in the final quarter, including the go-ahead free throw with 3:04 left, to lift Atlanta to a 109-105 victory over San Francisco at Oakland.

76ers 129, Trail Blazers 104

Archie Clark scored 28 points to lead Philadelphia to a 129-104 victory over Portland in the first game of a doubleheader at Boston Garden. Clark scored ten points in the third quarter, as the 76ers shook loose after leading by two at halftime, 54-52.

ABA Stars Win 18th in Last 21, Stay 3½ in Front

SALT LAKE CITY, March 4 (UPI).—Ron Boone scored 28 points and Red Robbins pulled down 16 rebounds and blocked five shots as the Utah Stars blitzed the Denver Rockets, 139-106, in an American Basketball Association game last night.

The victory was the Stars' sixth in a row and their 18th in the last 21 games. The Stars retained a 3 1/2 game lead over the Indiana Pacers in the West Division.

Pacers 122, Pros 98

Indiana led virtually all the way and trounced Memphis at Indianapolis, 122-98, as rookie Rick Mount lead the scoring attack for the first time. Mount, a highly touted All-America at Purdue who has been limited action this season, started and scored 26 points, hitting ten of 17 from the field.

Colonels 131, Cougars 128

Dan Issel's 35 points powered Kentucky to a 131-128 victory over Carolina, at Louisville, Ky. Issel, the league's leading soccer, hit seven straight points in the final six minutes to send the Colonels ahead to stay.

ABA Results

Wednesday's Results

Utah 139 (Boone 28, Stone 30), Denver 106 (Cannon 18, Hammond 18).
Indiana 122 (Mount 26, Brown 25), Memphis 98 (J. Jones 34, Ladner 23).
Kentucky 131 (Powell 26, Issel 25), Carolina 128 (Caldwell 33, Verga 25).

Pitchers Ahead of Hitters? Exhibitions to Start

NEW YORK, March 4 (AP).—Steve Carlton, a 19-game loser for the St. Louis Cardinals in the National League last year, pitched two strong innings in an intrasquad game yesterday, sharpening his curve and changeup. But, of course, it is too early to tell whether he can shake the losing habit.

The 26-year-old southpaw is scheduled to start against the New York Mets Saturday in the Cardinals' first exhibition game. The opening exhibition games are scheduled tomorrow.

Denny McLain, who may start for the Senators against the Yankees tomorrow at Pompano Beach, Fla., inipressed with a three-inning stint in an intrasquad game yesterday.

He fanned the side in the first inning, but yielded a run in the third on a walk and a triple by Ed Stroud.

Donn Clendenon came up with three hits in three at-bats in a Mets intrasquad game in which Tom Seaver pitched two innings allowing two hits and striking out two.

A Cincinnati rookie, Kurt Bevacqua, was the star of the Reds' first intrasquad game. He drove in five runs, two on a home run.

Veteran Tommy Davis belted a home run and added a two-bagger in the Oakland A's intrasquad game. Joe Pepitone and rookie Garry Jestadt also hit for the circuit in the Chicago Cubs game. So did Rich Chiles, Larry Howard, Cesar Cerdeno and Cliff Johnson in the Houston game.

In off the field activity, Boog Powell, star slugger for the Baltimore Orioles, signed for an estimated $90,000. Outfielder Vada Pinson signed with Cleveland for an estimated $61,500 and reliever Pete Mikkelsen signed with Los Angeles for $32,500.

In addition to the Yankees-Washington game, other opening exhibitions tomorrow include Pittsburgh vs. Chicago White Sox, Montreal vs. Atlanta, San Francisco vs. Chicago Cubs, San Diego vs. Oakland and Boston vs. Houston.

N.Y. Plans to Buy Yankee Stadium

NEW YORK, March 4 (NYT).—In a move to keep the Yankees and football Giants here, Mayor John V. Lindsay announced that the city planned to buy and modernize the 48-year-old Yankee Stadium, then lease it to the baseball club.

Asked at a city hall news conference how he could justify committing $25 million in city funds for the plans in the face of a critical money shortage, the mayor stressed that the money would not be taken from his hard-pressed expense budget.

Instead, he explained, 25 percent of the funds would come from the capital budget for public construction that is financed by borrowing. The 75 percent remaining would be raised outside the city's mandated debt limit by floating anticipation notes to be redeemed from proceeds from parking, concessions and leases.

Burke said the Yankees would certainly stay in the city "if things work out." He acknowledged that the ball club had stopped talking and negotiating with New Jersey officials who had been trying to move the team across the river.

The stadium, located in the Bronx, is owned by Rice University and the land is owned by the Knights of Columbus. The Yankees lease the property, pay maintenance costs and local taxes as well as fixed annual rentals. They sublet the stadium to the football Giants.

In another action involving stadium rental, the Baltimore Colts confirmed that the lease with Baltimore will be terminated when the current contract for the use of Memorial Stadium expires following the 1972 season.

Don Klosterman, general manager of the Super Bowl champions, said the Baltimore Park Board was informed of the NFL team's decision in a letter rejecting a proposal to meet next month.

There have been persistent reports the Colts will move to the Baltimore suburbs. Klosterman said three sites are still under consideration.

Rangers Wing to 6th Straight Led by Ex-Detroit Contingent

NEW YORK, March 4 (AP).—Hot-shooting Bruce MacGregor fired three goals and assisted on two others last night, leading the New York Rangers to an 8-1 National Hockey League victory over the California Golden Seals.

The hat trick and two assists gave MacGregor 11 points in his last five games. The Rangers have won six straight.

Pete Stemkowski, who like MacGregor and Stemkowski were also *recent trade* from Detroit, had two goals and three assists as the Rangers enjoyed their biggest scoring night of the season.

The five points apiece for MacGregor and Stembowski were also individual Ranger highs for the season. Dave Balon got his 35th goal of the season and rookie Andre DuPont his first in the NHL.

Kings 3, Sabres 3

Ralph Backstrom's 15-foot rebound shot with just 12 seconds remaining earned Los Angeles a 3-3 deadlock with Buffalo at Inglewood, Calif. The Kings, who got off a total of 56 shots in the game, swarmed all over the Buffalo net for the final minute before Backstrom succeeded in knocking in an attempt by teammate Matt Ravlich.

Wednesday's Results

New York 8 (MacGregor 3, Lemkowski 2, Tkaczuk, Balon, DuPont), California 1 (Ferguson).
Los Angeles 3 (Berry, Ravlich, Backstrom), Buffalo 3 (Meehan 2, Atkinson).
Chicago 5 (B. Hull, D. Hull, O'Shea, Mikita, Pappin), St. Louis 1 (McCreary).
Toronto 3 (Armstrong, Henderson, MacMillan), Vancouver 1 (Patemont).
Pittsburgh 4 (Pronovost 2, Hextall, McCallum), Montreal 0.
Penguins 4, Canadiens 0

Jean Pronovost scored two goals and assisted on another to power Pittsburgh to a 4-0 shutout of Montreal at home.

Maple Leafs 3, Canucks 1

Third-period goals by Paul Henderson, Billy McMillan and George Armstrong brought Toronto from behind to beat Vancouver, 3-1, at Toronto.

Black Hawks 5, Blues 1

Bobby Hull scored his 40th goal of the season and Chicago scored an easy road victory over St. Louis, 5-1.

Russel Captures French Slalom

LA PLAGNE, France, March 4 (AP).—Patrick Russel today won the men's special slalom in the French National Alpine skiing championships, edging Henri Duvillard with a fast second heat.

Duvillard had been in the lead after the first heat with a time of 47.19 seconds, but slipped to 50.69 seconds in the second heat, for a total of 97.88. Russel was clocked in 47.72 in the first heat and 50.15 in the second for a total of 97.87. Alain Penz was third with 99.24.

Marilyn Cochran, who won yesterday's women's giant slalom, was finally awarded the French National title after the French Ski Federation met to discuss a foreigner taking the crown.

Florence Steurer of France, who was disqualified yesterday, said: "I was United States champion in 1966. We can certainly have an American girl win in France."

Austrian Nationals

JOCHGERG, Austria, March 4 (AP).—Ingrid Gfoelner today won the women's downhill ski race of the Austrian Alpine ski championships, clocking the 2,270-meter course with an drop of 534 meters in 1:33.1. Anne-Marie Proell, leader in the World Cup standings, and most top skiers didn't compete, fearing injury in the non-World-Cup event.

The Scoreboard

BOXING—At Guadalajara, Mexico, former world bantamweight champion Ruben Olivares of Mexico scored a sixth-round knockout over Chung Park of South Korea. Park, downed for a mandatory eight count in the sixth round of the scheduled ten-rounder, staggered to his feet and was knocked out with smashing combinations to the body. Olivares will face champion Chucho Castillo of Mexico for the title in Los Angeles April 2. Castillo knocked out the previously unbeaten Olivares to win the crown last year.

At Tokyo, Hiroshi Kobayashi of Japan scored a unanimous 15-round decision over No. 3-ranked Ricardo Arrendondo of Mexico to retain his world boxing association junior-lightweight title. *There were no knockdowns* in a dull fight which saw the 26-year-old retain his title for the sixth time. Referee Yusaku Yoshida scored it 73-70 and the Japanese judges, Hiroyuki Terada and Tadeo Ugo, called it 73-69. Kobayashi, only rated No. 2 by the World Boxing Council, scored his 61st victory against eight losses and four draws. The WBC recognizes Yoshiaki Numata of Japan as champ.

ICE HOCKEY—At Stockholm, Russia prepared to seek its ninth successive world championship in Switzerland later this month by beating Sweden, 5-3. Sweden held their faster and stronger opponents even, 1-1, in the first period, but lost skipper Ulf Sterner and crack goaltender Leif Holmqvist, who were taken to a hospital with minor injuries. Russia outscored the Swedes, 2-1, in both remaining periods.

At Bois-le-Duc, the Netherlands, Belgium cemented its hold on last place in the Group C world championship with a defeat to Hungary, 31-1. The Belgians scored their fifth goal in five tournament games in the first period as they were outscored, 1-0, 6-0, 0-15, to tales their goals surrendered total to 106. Romania kept first place as it beat the Netherlands at Tilburg, 10-2, and France remained second with a 6-4 victory over Britain at Groningen. At Heerenveen, Denmark beat Bulgaria, 5-4. The standings:

	G	W	T	L	GF	GA	Pts
1. Romania	5	4	1	0	33	3	9
2. France	5	4	0	1	25	17	8
3. Hungary	5	3	1	1	52	24	7
4. Britain	5	3	0	2	40	23	6
5. Denmark	5	2	0	3	23	19	4
6. The Neth's.	5	2	0	3	27	25	4
7. Bulgaria	5	1	0	4	20	28	2
8. Belgium	5	0	0	5	5	106	0

TRACK—At Genoa, Britain's Phil Banning won the mile in 4 minutes 58 seconds after leading for most of the way at an international indoor athletics meet. Daniele Nefasto of Italy was second in 4:08.4 and Carlos Garcia of Spain third, caught in the same time.

Sheila Carey gave Britain another victory, taking first place in the 1,500 meters in 4:22.3. Angela Ramello of Italy was second.

In the men's long jump, Jose Arpelia of Spain leaped 6.56 meters to beat W. Norberto Capiferri of Italy. Luigi D'Onofrio of Italy took the 50-meter hurdles in 8.0.

THOROUGHBRED RACING—At Miami, the $153,000 Flamingo at Hialeah turned out to be a two-horse race but it did not involve the two favorites.

Executioner of the October House Farm and the Greentree Stable's Dynastic were the pair which battled it out most of the way, and which were one, two, respectively at the finish of the 1 1-8-mile fixture.

Next in the field of 11 was the 11-to-5 second choice Jim French. Jacinto Vasquez rode the winner, which paid $14.60 to win, scoring by a head.

It was the 42d running of the Flamingo, the first of the season's $100,000 races for 3-year-olds, and an event considered to have much bearing on the picture of the Triple Crown—The Kentucky Derby, the Preakness and the Belmont Stakes. Executioner earned $100,750. He is a home-bred son of Axe II and Mae East, and is trained by Eddie Yowell.

In scoring his second victory in two starts this year, Executioner was timed in 1:49 1-5, under the same burden of 122 pounds that each of his rivals toted.

The betting had the Derby Dan Farm's His Majesty favored at 13 to 10. His Majesty, after making a bid on the stretch turn, wound up in sixth place.

At Arcadia, Calif., the greenmoney favorite Ack Ack made it a runaway in the $38,200 San Antonio Stakes at Santa Anita. Jockey Bill Shoemaker sent the top-weighted Ack Ack, 124, into a quick lead and breezed home 3 1/4 lengths in front of Good Manners. Flinky Hanalei Bay was third in the field of 11 older horses in this final major test leading up to the Santa Anita $145,000 handicap March 13.

The time for the 1 1-8-mile run on a fast track was 1:47. Ack Ack paid $4 $3.20 and $2.60.

ALPINE SKIING—At Popova Sapka, Yugoslavia, Tino Petrogiovanni, 20, of Italy, won the special slalom event at the 15th international competition for the Cup of San Pianina.

Graebner, Franulovic Advance

HAMPTON, Va., March 4 (AP).—Second-seeded Clark Graebner of New York and third-seeded Zeljko Franulovic of Yugoslavia won second-round matches last night in the U.S. indoor tennis tournament.

Graebner defeated Australian-born Marty Mulligan of Italy, 6-4, 6-2, and Franulovic overcame 18-year-old Byron Bertram of South Africa, 4-6, 7-5, 6-3.

Bertram, two-time Wimbledon junior champ, surprised Franulovic in the first set and appeared to have the Yugoslav on the ropes, 3-1, in the second set before Franulovic snapped out of it to overpower the youngster.

Mrs. Court Gains

AUCKLAND, New Zealand, March 4 (AP).—Margaret Court of Australia gained the semifinals of the women's singles in the Benson and Hedges Open tournament today, defeating countrywoman Marilyn Pryde, 6-3, 6-1.

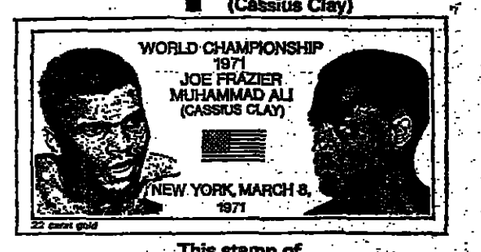

Winnie Shaw of Britain defeated Lesley Bowrey of Australia, 6-3, 7-6, and Patti Hogan of La Jolla, Calif., defeated Robyn Legge of New Zealand, 6-0, 6-3, to also reach the round of four. Miss Shaw had advanced to the quarterfinals past Jill Fraser of New Zealand, 6-2, 7-5, and Miss Hogan outhit Beverly Vercoe of New Zealand, 6-2, 6-2.

In men's singles quarterfinal action, Allan Stone of Australia outlasted Ray Moore of South Africa, 6-1, 7-6, 4-6, 5-7, 6-2, and Bob Carmichael of Australia beat countryman Bill Bowrey, 7-5, 6-2, 6-7, 6-4. Stone had advanced in the second round past American Ray Barth, 3-6, 6-2, 7-5, 6-1.

In second round singles today, John Cooper of Australia downed Frew McMillan of South Africa, 3-6, 4-6, 7-5, 6-4, 6-1.

Rising Prize Sap

By Russell Baker

WASHINGTON.—This is the season when everybody is being nominated for prizes, of which there are some several million awarded every year in the United States. Not having a prize would not be quite as depressing as it is if there were not so many to be had.

Baker

If you are really good, of course, you can gain even more distinction by saying you do not want a prize, as George C. Scott has done after having been nominated for an Academy Award for his performance in "Patton." Most of us, however, need a prize to give us the strength to keep on lying to ourselves.

That is why, at a certain stage in life, so many of us rise above pride one day in March when the prize nominations are coming out and our names are once again being omitted from every ballot—that is why we go hat in hand down to the ministry of prizes, struggling to look upright, talented, flamboyant, eminently photographable for the papers on award day and, in general, prizeworthy.

The interviews are, apparently, always embarrassing, no matter how self-righteously the suppliant arrives.

"Twenty years?" asks the woman at the complaint desk. "You say you haven't had a prize for twenty years, and you think you're entitled to an Oscar or a Tony or an Emmy just because you haven't had anything for twenty years?"

"Well, it's not really for me. You understand." (What a lie!) "It's my wife. She has—you know how it is—social pretensions."

The only way to get past the female Cerberus at the complaint desk is to throw a nasty scene. Sometimes this will open the door to Mr. Straffley's office. Straffley is a very decent fellow.

"Come on now, old fellow," Mr. Straffley may say. "There was really no call for lying out there on the floor blubbering like that, you know. There are prizes enough for all Americans."

"I'm not getting any younger, Mr. Straffley. 'My children are losing their respect for me. My wife has threatened—.'"

"There, there!" How comfortingly Mr. Straffley can say, "There, there!" He has prize nominations to scatter to the wind. He commonly starts by offering a Sammy. The Sammy is given for a distinguished piece of finding a curb parking space in a downtown district during an afternoon rush hour. The trick, once Mr. Straffley offers a Sammy, is to bargain.

"I'd rather have an Oscar. My performance at the complaint desk must have been worth something."

"I think we could give you a good crack at a Herman." The Herman is given to 25,000 businessmen for the year's 25,000 most distinguished pieces of letting somebody else grab the luncheon tab.

"Why not a special Pulitzer for twenty years of newspaper reading without succumbing to a single fatal depression?"

"I can get you nominated for the Dickie." The Dickie is awarded for a distinguished piece of getting the fire started by using only those pages of the newspaper that contain news of government and politics.

* * *

"Frankly, Mr. Straffley, I should have had the Dickie fifteen years ago. If nominated for it now, I shall tell the press that I do not want it."

"I'll give you a break. The Seymour nomination can be yours."

"For a distinguished piece of losing the temper when confronted with a long-haired son at the dinner table on an evening when duck is the main course? It's something, Mr. Straffley, but it's not the National Book Award."

Mr. Straffley may point out here that not every American is entitled to a prize. This means he is about to make his last offer. "How would you like the Irving?"

Which, ladies and gentlemen, is why this column can now report exclusively that among the nominees for the Irving, given each year for a distinguished piece of gravy-stain removal from a silk necktie, will be—ha! you can't lose them all.

The Fate of Albert Schweitzer's Hospital

'The whole thing is too old and belongs to the past,' said a Gabonese official, who thinks the buildings should be turned into a museum.

By Bernard Lavellee

LAMBARENE, Gabon (AP).—Doctors in this remote village in the equatorial forest are wondering whether the old Albert Schweitzer Hospital should be turned into a museum or be modernized to compete with up-to-date medical establishments.

The hospital was built by Dr. Schweitzer and a few African aides when he arrived here in 1913 to cure lepers and other suffering Africans, who had no doctors other than village wizards.

But, for lack of money and also because Dr. Schweitzer feared that sophisticated equipment would frighten Africans who trusted his simple humanitarian treatment, the hospital was not modernized for years. The first electrical generator was set up after the Nobel Peace Prize winner died in 1965.

Now the team of doctors which has replaced Dr. Schweitzer as head of the hospital is trying to catch up with the long years of conservatism.

"The best way to modernize hospital methods is to build a new hospital building nearby," a staff member said. The plan for a new, 200-bed hospital was agreed upon early last year by the Albert Schweitzer Associations when they met in Strasbourg, France. A special committee was set up to draw the plans and collect the necessary funds.

A high Gabonese official, who asked not to be identified, said he believed the buildings should be turned into a museum. "The whole thing is too old and belongs to the past," he said.

Associated Press.

Albert Schweitzer at Lambaréné hospital in 1963.

Museum Proposed

The official said a Schweitzer museum would help perpetuate the fame of the French Alsatian doctor. Dr. Schweitzer was among the first Europeans to enter the Gabonese forest early in the century. He built a hospital in this village with his own hands when it was seven days by pirogue from the nearest Atlantic port.

Today, foreign tourists come in a steady flow—about 35 a week—from as far away as the United States, Japan and Sweden to look at the work of the late "great doctor of the bush."

Ambroise Niama, who worked for 40 years as Dr. Schweitzer's attendant, has become a guide to show the hospital to visitors and sell them postcards and portraits of the doctor.

Dr. Schweitzer's glasses, stethoscope and Bible are kept as relics in the hut where he died, as is the armchair in the dining room where he used to sit, a room still lighted by oil lamps.

Mr. Niama also takes visitors to the disease huts, where Africans, lying or sitting on wooden bunks, look silently at the foreigner going by. An odor of ether and manioc, a native dish, creeps from the huts. The operating room has only a lattice-work door.

The team of French and Swiss doctors who succeeded Dr. Schweitzer has implemented a series of measures to improve health conditions. They ordered all sick animals and pets out, and locked up in a hut the antelope that used to sleep beside the doctor's bed. They also ordered that the surrounding huts could no longer be used as toilets.

Now, each patient may bring along only two relatives during his stay in the hospital. Dr. Schweitzer had sometimes allowed dozens of them to stay in or just outside the huts. He believed their presence helped the Africans endure medical care.

The changes have not met with unqualified approval from some of Dr. Schweitzer's former attendants. When his daughter, Reina Heckart-Schweitzer, left the hospital last year, it was said she opposed decisions that she felt contrary to her father's will.

Opinions

And there are conflicting opinions about the hospital itself. Barbara Dubbs, a 23-year-old Swiss nurse, said she was "impressed by the health conditions" which she found "marvelous for the bush." But some doctors are said to have been shocked by physical conditions and to have left before their 18-month contracts ended.

Frederic Trensz, former leader of the Schweitzer Association in Strasbourg, said in a telephone interview that the huts would not be closed when the new buildings are built but "used to lodge convalescents."

Some Gabonese in Lambaréné feel that the hospital is already operating under too much of a handicap. They point out that some rich Europeans and Americans who came to visit the hospital during Dr. Schweitzer's time left without giving any money when they saw that the doctor refused to install modern equipment. "Now the hospital has too much of a handicap," they say. "In comparison, the state hospital and the motel on the other side of the river look plush."

Whatever happens to the hospital, Dr. Schweitzer's unprecedented methods for making Africans feel at ease while being cared for have been emulated by young doctors who come here to see for themselves. They apply some of his methods in new medical centers elsewhere in Africa where tradition and modern treatment cohabit.

PEOPLE: *A Great Auk Goes Home*

Flying home today—in the freight compartment of an airliner—is one of the last of the great auks, purchased yesterday by a group of Icelandic businessmen for donation to their country's Museum of Natural History. The stuffed bird, one of an estimated 50 mostly on display in museums around the world, was bought at auction in London by the combined Rotary, Kiwanis and Lions Clubs of Iceland who paid $21,600 for their trophy, a world-record price for a natural history specimen according to Sotheby's, the auctioneers. The great auk, a flightless sea bird resembling a puffin and standing nearly two feet high, vanished from existence in 1844 in Iceland, where the last live bird was seen. The specimen sold yesterday had been the property of Danish Baron Raben-Levetzau, whose ancestor, Count F.C. Raben, bagged it on a voyage to Iceland in 1820.

Another record was set at the same auction when Quarritch, London book dealers, paid $2,400 for an egg. The fossilized specimen, laid by a gigantic ostrich-like creature named aepyornis maximus, weighed about 20 pounds when fresh—about a million years ago—and is 15 inches long and 28 in diameter. Its parent stood some ten feet tall, weighed half a ton, and survived until men came to Madagascar, where it gave rise to the legend of the roc bird described by Sinbad in "The Arabian Nights."

A third record was set yeste[rday] when 11,000 admirers of Chi[cago] Mayor Richard J. Dal[ey] attended a $15-a-head testimoni[al] banquet in the McCormick Pla[ce] Convention and Exhibition Cen[ter]. Mayor Daley, 68, beame[d] from a gold-draped head tab[le] as 750 waiters dispensed 11,0[00] filets mignons with bordelai[se] sauce (simmering since Saturd[ay] in a 100-gallon kettle), 3,5[00] pounds of potatoes, 30,000 pa[ts] of butter and 11,000 fruit sala[ds] after the guests had tanked u[p] on cocktails from 75 bars. Ac[]cording to the Guinness Book [of] Records, the best-attended pr[e]vious banquet was held at Lo[n]don's Olympia in 1926, when 8,0[00] chowed down at a Freemason World War I memorial fun[d-]raising dinner.

* * *

EMIGRATING: Mick Jagg[er] and the Rolling Stones, who an[]nounced yesterday that they pla[n] to quit Britain and live in th[e] south of France. Spokesman Le[s]lie Perrin said: "The main reaso[n] is that they like France treme[n]dously" but denied reports th[at] the move was being made for ta[x] reasons. "Tax is higher in France" asserted Perrin. "I have liv[ed] there and I know." France, how[]ever, could presumably offer th[e] Stones certain advantage[s] through easier exchange-contro[l] regulations than prevail in Bri[t]ain for handling their enormou[s] international revenues.
